2026 Mark Hayward, 2025-10-15 *Emerging Threat Vectors and Attack Techniques for 2026* This eBook *Cyber Security Cyber Landscape 2026 Series 7* is an excellent timely analysis that focuses on the strategic risks driving the next phase of the cybersecurity landscape. Core Strengths of the Passage 1 Accurate Threat Prioritization Ransomware The text correctly identifies ransomware as the most significant escalating threat. The most valuable insight here is the focus on the Ransomware as a Service RaaS model. By highlighting that RaaS lowers the barrier to entry for non technical criminals the passage accurately explains the driver behind the increased prevalence and sophistication of these attacks. Furthermore the inclusion of critical infrastructure as a target shows strategic awareness of modern geopolitical and economic risks. 2 Clarity on IoT Risk The text clearly articulates the two primary reasons why Internet of Things IoT devices are a major emerging threat. They introduce more entry points due to their proliferation. They are frequently deployed with minimal security features. The use of the DDoS attack example provides a clear high impact consequence making the threat tangible for the reader. 3 Emphasis on Evasion The mention of the need to recognize advanced evasion techniques correctly signals to the reader that traditional signature based security tools will fail. This sets the stage for the book to discuss more proactive and adaptive security measures. This is a high quality eBook that frames the cybersecurity outlook for 2026 around two dominant evolving threats RaaS and IoT. It effectively sets the tone for a book focused on strategic vigilance and adaptive security practices.

Each book claims to have touched upon all the topics pertaining to cybersecurity. They make tall claims that their book is the best and the only one that has the keys to the treasures of knowledge on cyber security but to tell the truth they literally fail to impress well trained readers who expect more. Many cram their book with redundant topics and superficial things without quoting examples from real life.
