Survivors of Childhood Trauma Mervin R. Smucker, Constance V. Dancu, 1999-06-01 The increasing frequency with which
issues of childhood sexual abuse come up in therapy highlights the need for an effective short term treatment for these
patients Imagery rescripting and reprocessing therapy the treatment program described in this book is an information
processing schema focused model in which the recurring traumatic abuse memories are treated with a combination of
prolonged imaginal exposure and imaginal rescripting With the use of both imagery and verbal interventions to activate the
entire fear memory and to identify challenge modify and reprocess the recurring traumatic imagery and abuse related beliefs
a more adaptive schema is created The authors comprehensively describe this treatment program offering step by step
procedures for each session Models of all verbal instructions and written materials given to the patient are included for easy
use or adaptation Three treatment formats are demonstrated with detailed extended excerpts from actual sessions This
readable and informative book is a significant advance in the treatment of post traumatic stress syndrome resulting from
