Building Construction Before Mechanization John Fitchen,1989-04-03 How were huge stones moved from quarries to the sites of Egyptian pyramids How did the cathedral builders of the Middle Ages lift blocks to great heights by muscle power alone In this intriguing book John Fitchen explains and illustrates the solutions to these and many other puzzles in preindustrial building construction This is the first general survey of the practices and role of the builder as opposed to the designer in constructing an array of structures Fitchen s approach gives a valuable hands on feel for what it s like to work with ropes and ladders wedges and slings with crews engaged in well digging bridge building and the transporting of obelisks hundreds of miles by water and over land The buildings discussed range from the tents tepees and igloos of nomadic tribes to the monumental pyramids of Egypt the temples of Greece the aqueducts of Rome and the cathedrals of medieval Europe Model Villages Tim Dunn,2017-11-15 Part of the story of the seaside holiday and a fascinating sidelight on British social history the model village richly deserves its history written here by Britain s foremost village expert and advocate

Amateur Craft

Stephen Knott,2015-08-27 Amateur Craft provides an illuminating and historically grounded account of amateur craft in the modern era from 19th century Sunday painters and amateur carpenters to present day railway modellers and yarnbombers Stephen Knott s fascinating study explores the curious and unexpected attributes of things made outside standardised models of mass production arguing that amateur craft practice is differential a temporary moment of control over work that both departs from and informs our productive engagement with the world Knott s discussion of the theoretical aspects of amateur craft practice is substantiated by historical case studies that cluster around the period 1850 1950 Looking back to the emergence of the modern amateur he makes reference to contemporary art and design practice that harnesses or exploits amateur conditions of making From Andy Warhol to Simon Starling such artistic interest elucidates the mercurial qualities of amateur craft Invaluable for students and researchers in art and design contemporary craft material culture and social history Amateur Craft counters both the marginalisation and the glorification of amateur craft practice It is richly illustrated with 41 images 14 in colour including 19th century ephemera and works of contemporary art Modern Construction Handbook Andrew Watts,2013-07-17 The Modern Construction Handbook has

become a building construction classic and is used as a textbook in many courses Its systematic approach with chapters on materials walls roofs construction and environment offers clear and efficient orientation Digital fabrication techniques are included as well complementing traditional production processes and presented in an instructional book for the first time The third edition has been thoroughly updated and now provides More information more annotation of drawings more text on the page Updated future chapter with more emerging construction techniques Updated essays on construction in the introduction Chapter 1 More technical data in the Materials Chapter The content in this third edition has been completely reworked which makes it an even more valuable companion for students and young practitioners *Building World* ,1911
