**Introduction Foundations of Chaplaincy** Alan T. Baker, 2021-02-18 An approachable overview of the nature purpose and functional roles of chaplaincy Chaplaincy is unlike any other kind of ministry It involves working outside a church without a congregation usually in a secular organization It requires ministering to those with starkly different religious convictions many of whom may never enter a house of worship It is as Alan Baker writes ministry in motion Those who are embarking upon this unique and specialized call deserve equally unique and specialized guidance and Foundations of Chaplaincy offers exactly that Baker surveys the biblical and theological foundations of chaplaincy before enumerating four specific responsibilities and skills that define chaplaincy's ministry of presence providing facilitating caring and advising Baker's thorough guidance on these matters is supplemented in sidebars with practical advice and anecdotes from over thirty chaplains currently serving in a variety of settings and organizations Chaplains who serve in healthcare the military correctional institutions police and fire departments sports teams college campuses and corporations have essential roles to play in their respective organizations but theirs is rarely an easy calling With Foundations of Chaplaincy as an introduction and an ongoing reference those called to this important vocation may be assured of having the tools they need to cultivate a strong mission driven pastoral identity rooted in their own theological tradition while simultaneously participating in a multi faith team

**Muddling Through** Peter Howson, 2014-01-19 As with many other aspects of the British army the outbreak of World War One started a process of change that was to result in a radically different provision of chaplaincy care once the war was over Nothing was ever simple with army chaplaincy The war saw an increase in the number of churches becoming involved with the army The structure had already been under pressure in the first decade of the century with the Catholic Church insisting on new rules for its chaplains The creation of the Territorial Force added a new dimension after 1907 bringing new players into the mix including the Jewish community These chaplains challenged the traditional Garrison Church based ministry of the regulars The book examines the muddled state of chaplaincy in August 1914 and looks at how chaplains were mobilized It then reviews how organizational changes were often the result of pressure from the different churches The unilateral decision of the Church of England in July 1915 to leave the unified administration in France that had existed since August 1914 is examined in the light of the availability of the relevant volume of the diaries of Bishop Gwynne a key participant in the change Chapters also look at the experience of other Imperial forces and of the casualties suffered by chaplains These all provide evidence of the expectations that various groups had of army chaplains It is often forgotten that two chaplains were captured during the retreat from Mons in 1914 They were never far from the fighting throughout the war The experiences of the war meant that the pre war structure needed reform The final chapter looks at the structure that was created in 1920 and then survived virtually unchanged until 2004 Army chaplaincy has always been a mix of Church Army and State Such a coming together inevitably lead to confusion Not surprisingly one of the themes was the muddle that

resulted Even so army chaplaincy ended the war with a much higher profile than the one it had in 1914 This was recognised by the addition of Royal creating the RACHD Anglicans Catholics Presbyterians Methodists and other faith groups as well as military historians will find this book of interest as it overturns a number of myths and puts chaplaincy in its wider context

**Non-Religious Pastoral Care** David Savage, 2018-09-21 This ground breaking book is a guide to non religious pastoral care practice in healthcare prisons education and the armed forces in the UK It brings a new perspective to our understanding of care services traditionally offered by chaplaincy departments The book charts the progress from a Christian to a multi faith and on to a fully inclusive care service Compelling evidence is presented showing strong and broad support for non religious pastoral care provision A practical guide it outlines the beliefs and values on which this care is founded and its person centred approach The role skills competencies and training requirements for non religious pastoral carers are described Institutions need to consider their policy responses to the rapid development of non religious pastoral care provision A number of policy aspects are explored including understanding service users needs recruitment and communications This book is essential reading for non religious pastoral carers and those thinking of entering this field Chaplains and institutional managers responsible for chaplaincy or spiritual care departments will find this book gives them valuable insights into the positive contribution non religious pastoral carers can make in building stronger more inclusive pastoral spiritual and religious care services *The Chaplain*, 1975 **The Literary Guide and Rationalist Review**, 1917
