Minutes To Midnight Nuclear Weapons Protest In America:

Minutes to Midnight Frances B. McCrea, Gerald E. Markle, 1989-08 Recipient of the 1991 Scholarly Achievement Award of the North Central Sociological Association *Minutes To Midnight* is a timely examination of one of the preeminent moral political and economic dilemmas of our time. McCrea and Markle explore the dynamics of social movements behind antinuclear weapons campaigns in America from the earliest post war atomic scientists movement to the ban the bomb efforts to the ill fated Freeze movement of the 1980s. The authors note that the atomic scientists movement was the first attempt by scientists as scientists to protest the uses of their own creation. They locate contemporary problems in their historical context by exploring the ways in which traditional pacifist groups provided the infrastructure and directly presaged in strategy tactics and organizational dilemmas the Freeze movement. The authors use their information on antinuclear protest activity as a way of understanding how social movements are founded, how they fare and how social change occurs in postindustrial society. This highly readable book will be of interest to a broad interdisciplinary audience of scholars, professionals, graduate students and upper division undergraduates in political science, peace studies, American studies, sociology and the study of social movements, international relations and history. An excellent supplementary reading in college courses on social movements and political sociology will stimulate discussion and debate on perhaps the most important issue of the century. *Contemporary Sociology* The book clearly applies social theory to richly described cases of American protests against nuclear weapons admirably the cases are viewed as linked within a broad historical context. Louis Kriesberg, Syracuse University. For those interested in group theory it does compile some useful information on the strategies and tactics of the various associations discussed. Upper division undergraduates, graduate students and general readers.

Choice **American Anti-Nuclear Activism, 1975-1990** K. Harvey, 2014-10-28 Looking at national peace organizations alongside lesser known protest collectives this book argues that anti nuclear activists encountered familiar challenges common to other social movements of the late twentieth century.

Religion and War Resistance in the Plowshares Movement Sharon Erickson Nepstad, 2008-04-07 Nepstad documents the trajectories of various Plowshares movement groups revealing how activist decisions affect longevity.

[Saving the World from Nuclear War](#)

Vincent J. Intondi,2023-03-07 On June 12 1982 more than a million people gathered in Central Park for the disarmament rally to end all disarmament rallies Timed to coincide with and show support for the United Nations Second Special Session on disarmament the demonstration demanded an end to the global nuclear arms race This historic event represents the height of the antinuclear movement and was at that time the largest mass protest in American history easily larger than those in opposition to the Vietnam War The author has written a compact history of the event not only the day itself but the months of planning and logistics work that made it so successful

Polite Protesters John Lofland,1993

Lofland brings his wealth of knowledge about social movements and collective behavior to this sociological study His analyses reveal a peace movement with organization culture and tactics quite different from those of the 1960s and 1970s The radicals of the 1980s were polite protesters more likely to turn to the politics of interest groups and lobbyists than to that of involved demonstrations and flag burnings

The American

Peace Movement Charles Chatfield,Robert Kleidman,1992 In November 1969 tens of thousands of demonstrators converged on Washington D C to protest U S involvement in Vietnam For four days they marched sang and made speeches calling for an end to the war then they dispersed Who were these people and what brought them together Who was in charge and what did they hope to accomplish What real effect did the event have on public opinion or foreign policy In

The American Peace Movement Ideals and Activism Charles Chatfield explores such questions as they relate to the peace movement from the early nineteenth century up to the present Combining a broad historical scope with a sociological perspective the study examines the movement as a social process an interaction of organizations strategies and goals Chatfield analyzes public attitudes toward peace war and foreign policy and the shifting constituencies of the various peace coalitions as the movement responded to specific challenges of the international situation Detailed portrayals of events goals strategies and leaders help bring the story of the peace movement vividly to life

Violence in America Ted Robert Gurr,1989-06

An excellent companion to Violence in America The History of Crime this volume provides fascinating insight into recently developed theories on the sources of recurring conflict in American society With their main focus on traumatic issues that have generated group violence and continue to do so the contributors discuss the most intractable source of social and political conflict in our history the resistance of Black Americans to their inferior status and the efforts of White Americans to keep them there Other intriguing topics include the emergence and decline of political terrorism and the continuation of violent

threats from right wing extremists such as the Klan the Order and the Aryan nations The basic assumption underlying all interpretations is that group violence grows out of the dynamics of social change and political contention The idea presented is that the origins processes and outcomes of group violence like the causes and consequences of crime must be understood and dealt with in their social contexts This volume is essential reading for students and professionals in history criminology victimology political science and other related areas SEE QUOTE W VOLUME ONE **America Insecure** Miles D. Wittner,1993 Toward Nuclear Abolition presents the inspiring dramatic story of how citizen activists helped curb the arms race and prevent nuclear war Examining events from 1971 to the present the author continues the account he began in two earlier volumes One World or None and Resisting the Bomb The book shows how pressure from the Nuclear Freeze campaign in the United States the European Nuclear Disarmament campaign and comparable movements around the world foiled the nuclear ambitions of hawkish government officials and forced them toward nuclear arms control and disarmament A leading historian and peace researcher the author combines extensive scholarly research with a pathbreaking account of how the largest mass movement of modern times saved the world from nuclear annihilation America, History and Life ,1993 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide **Guide to the American Left** ,1999 **Understanding and Teaching Contemporary US History Since Reagan** Kimber Quinney,Amy L.
