Ulrich Geilmann

Mir Sultan Khan:

Mir Sultan Khan R. N. Coles,2015-01-15 Mir Sultan Khan was the most remarkable and amazing chess player who ever lived He was by far the first player of grandmaster strength from Asia He came from a country where chess as we know it was not played He had no book knowledge or training He knew nothing of opening theory or studies of the game He was brought from India as a servant and instructed by his master to play chess Yet he quickly established himself as one of the strongest players in the world defeating Capablanca Rubinstein Flohr Tartakower Bernstein Marshall and many other of the world s leading grandmasters although the title was not established at that time in tournament games He also drew several games with World Champions Alekhine and Euwe but never beat them Sultan Khan won many games in the endgame He often traded queens in the opening His games lasted a long time He defeated Capablanca in the endgame when Capablanca was thought of as being unbeatable and the strongest endgame player in the world In games where he salvaged a draw he appeared to be hopelessly lost against Euwe and Rubinstein All the games from Descriptive Notation to Algebraic Notation All 64 games in Algebraic Notation are to be found in a new appendix in the back of this book along with a concluding diagram for each game In addition four other games are included These are all games were R N Coles gave a diagram or part of the game but not the complete game One is an 80 move game mentioned on page 48 where Sultan Khan was able to salvage a draw in a position against the great Rubinstein that appeared to be hopelessly lost Next is an 87 move game which is mentioned in the introduction to game 24 in which Sultan Khan defeated Tartakover by offering a knight sacrifice That game in full is not in the original text probably because of its length even though it includes a cute knight sacrifice at the end The third is a game against Vera Menchik with a diagram on page 91 The fourth is a draw where he swindled World Champion Euwe into an endgame where he had the wrong colored bishop

The Best Games of Mir Sultan Khan R. N. Coles,2003-10-01 At the height of the British Empire the chess loving Indian servant Sultan Khan arrived in the imperial capital as part of the feudal retinue of Sir Umar his high caste master While Sir Umar deliberated in the rarefied atmosphere of London conferences with British panjandra on the future of the Raj his retainer started to take on the British elite at chess Sweeping all before him the Indian genius entered the international arena where playing top board for the British Empire team he defeated grandmasters such as Rubinstein

Mir Sultan Khan Richard Nevil Coles,1965 **Mir Sultan Khan** Richard Nevil Coles,1977 *Sultan Khan* Daniel King,2020-04-08 Hardly anyone paid attention when Sultan Khan arrived in London on April 26 1929 A humble servant from a village in the Punjab Khan had little formal education and barely spoke English He had learned the rules of Western chess only three years earlier yet within a few months he created a sensation by becoming the British Empire champion Sultan Khan was taken to England by Sir Umar Hayat Khan an Indian nobleman and politician who used his servant s successes to promote his own interests in the turbulent years before India gained independence Sultan Khan remained in Europe for the best part of five years competing with the leading chess players of the

era including World Champion Alexander Alekhine and former World Champion Jose Raoul Capablanca His unorthodox style often stunned his opponents as Daniel King explains in his examination of the key games and tournaments in Khan's career Daniel King has uncovered a wealth of new facts about Khan as well as dozens of previously unknown games For the first time he tells the full story of how Khan a Muslim outsider was received in Europe of his successes in the chess world and his return to obscurity after his departure for India in 1933

The History of Afghanistan (6 Vol. Set) Fayz Muhammad Kātīb Hazārah,2012-12-19 The *Sir j al taw r kh* is the most important history of Afghanistan ever written This pinnacle of the rich Afghan historiographic tradition is available in English translation annotated fully indexed including an introduction eight appendices Persian English and English Persian glossaries and bibliography

[The Forgotten Indians](#) Harshit Kumar,2024-03-15 This captivating book sheds light on the remarkable contributions made by Indians in various fields highlighting their groundbreaking discoveries and extraordinary achievements that preceded those of individuals from any other part of the world Astonishingly these individuals have been largely forgotten overshadowed by the widely celebrated accomplishments of Greek figures Within its pages readers will discover a wealth of knowledge about the pioneering endeavors of Indian visionaries who were ahead of their time While the names of Alexander Pythagoras Ptolemy Copernicus Galileo and Newton are frequently discussed and praised it is a curious phenomenon that the equally deserving figures such as Ashoka Aryabhata and Brahmacharya remain in the shadows of historical discourse The book compellingly explores this disparity offering insights and answers to the questions that naturally arise Moreover this book is merely the first installment in a captivating series that promises to delve deeper into the subject matter With subsequent parts already in the works readers can anticipate a multitude of future volumes that will further unveil the rich tapestry of Indian contributions throughout history

The History of Professional Chess in Britain, 1774-2000 Adrian Harvey,2024-10-18 This is the first history of British chess to embrace the modern era commencing with the earliest club established in Britain in 1774 and going right through to 2000 Its principal focus is on those people who used the game to earn a living professionals such as Staunton and Short though also deals with prominent amateurs for instance Thomas and Penrose The book is interested in social attitudes towards chess notably early struggles against moral disapproval and its gradual ascent to become an accepted and popular recreation Attention is paid to the evolution of various theoretical ideas notably the ideas of Philidor and Steinitz The major chess events in Britain are dealt with the scores of games being provided some with brief annotation and tables of results Amongst the events covered are matches such as de la Bourdonnais v McDonnell and tournaments such as London 1851 and 1883

Re-Engineering The Classics Matthew Sadler,Steve Giddins,2023-05-03 Are you ready for the truth about forty of the most fascinating and complex chess games ever played by World Champions and other top

grandmasters Grandmaster Matthew Sadler and renowned chess writer Steve Giddins take a fresh look at some classic games ranging from Anderssen Dufresne played in 1852 to Botvinnik Bronstein 1951 and Geller Euwe 1953 played a century later They unleashed the collective power of Leela Komodo and Stockfish to help us humans understand what really what really happened in these games of World Champions and fan favorites such as Bent Larsen Michael Basman and Tony Miles The first engines improved our understanding of the classic games by pointing out the tactical mistakes in the original contemporary game notes But the expertise of Matthew Sadler in his third book on the use of engines to deepen our chess understanding is to uncover the positional course of a game The modern engines who came alive after 2018 can change our whole perception of the strategic and technical pattern of a game You will for example learn to appreciate and understand a classic Capablanca endgame A classic Petrosian exchange sacrifice A winning and then losing king hunt endgame between Spassky and Tal You will see how Bent Larsen already understood the strength as the h pawn march far before that was revealed by AlphaZero We will see new strategic ideas and plans that human players had not previously thought of Even the greatest King's Indian player ever Viktor Korchnoi would be amazed by the engine's unique ideas on how break through on the Queen side The most instructive games are often those which are more strategic and technical That is why the modern chess engine is such a helpful tool to enrich our understanding With these engines the authors have re-engineered a wonderful and highly entertaining series of games generating dozens of positional chess lessons that will help every club player and expert to improve their game

The Chess Battles of Hastings Jürgen Brustkern, Norbert Walle, 2022-11-05

No other chess tournament has such a long and rich history as the annual gathering in between the years at the English seaside resort of Hastings Countless chess players professionals and amateurs alike have celebrated Christmas and welcomed the New Year in Hastings while battling it out on the chessboard German FM Jürgen Brustkern has been making the annual pilgrimage to Hastings ever since 1977 Together with his compatriot Norbert Walle he describes the tournament's fascinating history and portrays forty of the most colourful participants The stories begin in 1895 when the young American Harry Pillsbury shocked the European chess elite with his victory and they span 125 years In this book you will meet the strongest female players of all time Vera Menchik Nona Gaprindashvili and Judit Polgar You will get to know the mysterious Sultan Khan and the unorthodox Michael Basman and enjoy anecdotes about Mikhail Tal Viktor Kortchnoi and his rival Anatoly Karpov How many World Champions came to Hastings How expensive was the Golden Knight trophy that Lajos Portisch won What was the effect of the British Chess Explosion This collection of games and stories is enjoyed best in the dark days between Christmas and New Year's Eve after a stroll on the beach immersed in the spirit of Hastings Should I trade my Romantic style for the modern way and only hunt for points Nicolas Rossolimo is quoted as asking himself No I won't I will fight for chess as an art form

Max Euwe's Best Games Jan Timman, 2022-05-22 World Chess Champion Max Euwe who held the title from 1935-1937 is one of the greatest chess players in history Much has been written about him and

he authored dozens of books himself But missing was an outstanding collection of games of this efficient man eating tiger as the American grandmaster Reuben Fine once called Euwe Max Euwe s Best Games fills this gap And it couldn t have been written by anyone else than Euwe s successor in Dutch chess Jan Timman World Champion finalist and arguably one of the leading chess analysts of our time This book offers eighty of Max Euwe s games annotated with great clarity starting in his early twenties when he worked his way to the world top up until his late seventies when he was still a force to be reckoned with It is incredible how high Euwe s level of play was for over fifty years and how attractive his attacking style was Timman made many discoveries in Euwe s best and most famous games but has also unearthed several lesser known brilliancies Some interesting paradoxes are addressed along the line For example although he was an amateur almost his entire life Euwe was better versed in opening theory than most of his top level opponents Although he was the underdog he beat the mighty Alexander Alekhine in an epic World Championship Match in 1935 At 52 he could still beat top players like Geller and Najdorf with fantastic attacking play in the Zurich Candidates Tournament And when he was over seventy he was still highly dangerous for the new upcoming Dutch generation This game collection of an often underrated World Champion analysed by top grandmaster Jan Timman is a must have for anyone interested in World Championship chess **Chess Archives** ,1964
