Mirror on America ,2009     *Mirror on America* Joan T. Mims,Elizabeth M. Nollen,2009-02-11 American popular culture is unique because America's cultural diversity is unique Building on its signature accessibility Mirror on America widens its embrace of popular culture exposing students to the idea that American popular culture is not monolithic but rather a composite reflection of all the cultures that consider themselves American Featuring current essays about topics students will already be familiar with and apparatus that supports and scaffolds every step of the reading and writing process Mirror on America reflects the interests of students and the instructors who want them to become confident writers     Mirror on America Joan T. Mims,Elizabeth Mahn Nollen,2005-12-01 Students come to college already equipped with plenty of knowledge about popular culture and are more than ready to talk about the topics that interest them Mirror on America Short Essays and Images from Popular Culture draws on that knowledge and interest and gives students the context they need to understand the culture around them Composed primarily of short high interest essays and rich visual images the text's thematic chapters present material that students will already be familiar with but in new and provocative ways Abundant apparatus guides their responses and helps them think and write critically about American popular culture     **Mirror on America** Joan T. Shrum,2017-08-30 An utterly fascinating reading of the multiple uses and meanings of mirrors among European Americans African Americans and Native Americans Journal of Social History What did it mean Rebecca K Shrum asks for people long accustomed to associating reflective surfaces with ritual and magic to become as familiar with how they looked as they were with the appearance of other people Fragmentary histories tantalize us with how early Americans people of Native European and African descent interacted with mirrors Shrum argues that mirrors became objects through which white men asserted their claims to modernity emphasizing mirrors as fulcrums of truth that enabled them to know and master themselves and their world In claiming that mirrors revealed and substantiated their own enlightenment and rationality white men sought to differentiate how they used mirrors from not only white women but also from Native Americans and African Americans who

had long claimed ownership of and the right to determine the meaning of mirrors for themselves Mirrors thus played an important role in the construction of early American racial and gender hierarchies Drawing from archival research as well as archaeological studies probate inventories trade records and visual sources Shrum also assesses extant mirrors in museum collections through a material culture lens Focusing on how mirrors were acquired in America and by whom as well as the profound influence mirrors had both individually and collectively on the groups that embraced them In the Looking Glass is a piece of innovative textual and visual scholarship A superb reflection of the many meanings held by an object usually taken for granted Highly recommended Choice *Mirror on America 2e + Encarta Paperback Dictionary* Joan T. Mims,Elizabeth M. Nollen,2004-01-08 *Commercial America* ,1910 **Mirror on America / IX Visual Exercises** Joan T. Mims,Elizabeth M. Nollen,Cheryl E. Ball,Kristin L. Barnett,2023-09-26 Three tectonic and inevitable shifts have left the world at a crossroads North America is poised to either re emerge as a global leader or turn back in time ceding power and influence to competitors The 21st century unleashed unprecedented changes across the globe to its climate to the demographic makeup of its nations and to the very nature of allegiance in the digital age With its global influence waning America must reevaluate its approach to globalization if it wishes to remain a leader In America's New Map Restoring Global Leadership in an Era of Climate Change and Demographic Collapse Thomas P M Barnett bestselling author of The Pentagon's New Map War and Peace in the Twenty First Century and acclaimed geo strategist offers seven throughlines to frame and redefine the ambitions and posture of these United States setting our Union on a bold but entirely familiar national trajectory In these pages Barnett offers a deep yet accessible dive into the three shifts that have lead us to this point As climate change ravages countries closest to the equator global dynamics are shifting from an East West emphasis to North South in the greatest geopolitical transformation our world has yet experienced and the Western Hemisphere is far better positioned to exploit this radical reorientation than the East Aging demographics worldwide favor more slowly aging nations including the US while challenging rapidly aging nations like China incentivizing countries best to delay that transition by integrating younger faster growing populations into their ranks In combination these two tectonic forces collide with a third the exploding consumption of an expanding and now majority global middle class the bulk of whom reside along the increasingly unstable North South frontier Taking every variable of these unique circumstances into account America's New Map charts a path toward a bigger and better United States We will all be living in somebody's world come mid century this book tells Americans how to make sure it is one we can recognize as our own **A Different Mirror** Ronald Takaki,2012-06-05 Takaki traces the economic and political history of Indians African Americans Mexicans Japanese Chinese Irish and Jewish people in America with considerable attention given to instances and consequences of racism The narrative is laced with short

quotations cameos of personal experiences and excerpts from folk music and literature Well known occurrences such as the Triangle Shirtwaist Factory Fire the Trail of Tears the Harlem Renaissance and the Japanese internment are included Students may be surprised by some of the revelations but will recognize a constant thread of rampant racism The author concludes with a summary of today s changing economic climate and offers Rodney King s challenge to all of us to try to get along Readers will find this overview to be an accessible cogent jumping off place for American history and political science plus a guide to the myriad other sources identified in the notes     *American Journal of Archaeology* ,1917     **Rowell's American Newspaper Directory** George Presbury Rowell,1887     **American Homes and Gardens** ,1905
