Mining In Africa Today Strategies And Prospects:

Mining in Africa Today F. Yachir, 1988 Mining and the Law in Africa Victoria R. Nalule, 2019-11-22 The mining sector has been an integral part of economic development in many African countries Although minerals have been exploited for decades in these countries the benefits have not always been as visible This has necessitated reforms including nationalisation of mining activities in the distant past and currently legal and regulatory reforms This book gives an insight of these reforms and with reference to the fieldwork research undertaken by the author in some African countries the book highlights the social and environmental impacts of mining activities in Africa The central question of the book is why the mining laws have worked in some countries but not others and what can be done to ensure that these laws are effective Consequently the book analyses the legal reforms made in the sector and highlights both the challenges and the opportunities for foreign investors as well as the African governments and local communities The book will be of great interest to researchers and students in Energy and Geography related fields as well as to practitioners and policy makers

Corporate Social Responsibility and Canada's Role in Africa's Extractive Sectors Nathan Andrews, J. Andrew Grant, 2020-01-28 With reference to global governance initiatives aimed at promoting ethical business practices this volume offers a timely examination of Canada Africa relations and natural resource governance Managing FDI for Development in Resource-Rich States L. Barclay, 2015-04-28 This book is a timely study in light of the resurgence of resource nationalism that is currently occurring in several resource rich developing countries It moves away from the traditional explanations for the disappointing economic performance of resource rich developing countries notably those advanced by key researchers

UNU Publications United Nations University, 1989 **Economic Development in Africa** United Nations Conference on Trade and Development, 2005 Given the lack of adequate resources to finance long term development in Africa the need to attract foreign direct investment has become a key aspect of development strategies in recent years advocated by policymakers at national regional and international levels This publication evaluates the benefits and disadvantages that FDI brings for the host country in efforts to achieve sustainable economic development and calls for a more balanced strategic approach which sufficiently recognises the economic and development challenges facing African countries *Minerals Yearbook*, 2004 *Mines and Methods*, 1910 Maldevelopment Samir Amin, 1990 With great clarity this updated edition explains the complex changes of the late 20th and early 21st centuries including the transformations in Eastern Europe and in the world economy the growth of capitalism in China and despite the West riding on the crest of new technologies its materialist goals being increasingly questioned by new social movements including the Greens Written by a well known political economist this analysis addresses problems specific to the third world with particular emphasis on the crisis of the African continent As it examines the failure of development from a political standpoint this account argues that the world needs to be remade on the basis of an alternative social system that is national popular and based on cooperation between
