The Northern Home Front during the Civil War Paul A. Cimbala, Randall M. Miller, 2023-02-21 With a new preface and updated historiographical essay Based on recent scholarship and deep research in primary sources especially the letters and diaries of ordinary people The Northern Home Front during the Civil War is the first full narrative history and analysis of the northern home front in almost a quarter century It examines the mobilization recruitment management politics costs and experience of war from the perspective of the home front with special attention to the ways the war affected the ideas identities interests and issues shaping people's lives and vice versa The book looks closely at people's responses to war's demands whether in supporting the Union cause or opposing it and it measures the ways the war transformed society and economy or simply reconfirmed ideas and reinforced practices already underway As The Northern Home Front during the Civil War reveals issues and concerns of emancipation conscription civil liberties economic policies and practices religion party politics war management popular culture and work were all part of what Lincoln rightly termed a People's Contest and as much as the armies in the field determined the outcome of the nation's ordeal by fire As The Northern Home Front during the Civil War shows understanding the experience of the women and men on the home front is essential to realizing Walt Whitman's oft quoted call to get the real war into the books

Racism in the Neoliberal Era Randolph Hohle, 2025-08-22 Racism in the Neoliberal Era explains how simple racial binaries like black white are no longer sufficient to explain the persistence of racism capitalism and elite white power The neoliberal era features the largest Black middle class in US history and extreme racial marginalization Racial languages change the meaning of public and private political economy's two fundamental terms Randolph Hohle focuses on how the origins and expansion of neoliberalism depended on a racial language of white private black public The language of neoliberalism explains how the white racial frame operates like a web of racial meanings that connect social groups with economic policy geography and police brutality When America was racially segregated elites

consented to political pressure to develop and fund white public institutions The Black civil rights movement eliminated legal barriers that prevented racial integration The elite white response to Black civic inclusion was to deregulate the Voting Rights Act and banking policy Elites gave themselves tax cuts and implemented austerity measures on government programs to aid the poor They privatized neighborhoods schools and social welfare creating markets around poverty They oversaw the mass incarceration and systemic police brutality against people of color Citizenship was recast as a privilege instead of a right Neoliberalism is the result of an elite white meta strategy to maintain political and economic power This new edition is thoroughly revised and updated to take account of the further history and debates over neoliberalism in the Trump and Biden eras and the significant social and political discussions around race and racism policing housing health care and citizenship as they interconnect with the American neoliberal economic and political system The new edition will be a vital textbook for students instructors and researchers in sociology politics race and economics **Minnesota in the Civil and Indian**
