You Can't Put God in a Box Kelly Besecke, 2014 Kelly Besecke offers an examination of reflexive spirituality a spirituality that draws equally on religions traditions and traditions of reason in the pursuit of transcendent meaning People who practice reflexive spirituality prefer metaphor to literalism spiritual experience to doctrinal belief religious pluralism to religious exclusivism or inclusivism and ongoing inquiry to final answers Reflexive spirituality is aligned with liberal theologies in a variety of religious traditions and among the spiritual but not religious You Can't Put God in a Box draws on original qualitative data to describe how people practiced reflexive spirituality in an urban United Methodist church an interfaith adult education center and a variety of secular settings The theoretical argument focuses on two kinds of rationality that are both part of the Enlightenment legacy Technological rationality focuses our attention on finding the most efficient means to a particular end Reflexive spiritualists reject forms of religiosity and secularity that rely on the biases of technological rationality they see these as just so many versions of fundamentalism that are standing in the way of compelling spiritual meaning Intellectual rationality on the other hand offers tools for analysis interpretation and synthesis of religious ideas Reflexive spiritualists embrace intellectual rationality as a way of making religious traditions more meaningful for modern ears Besecke provides a window into the progressive theological thinking of educated spiritual seekers and religious liberals Grounded in participant observation her book uses concrete examples of reflexive spirituality in practice to speak to the classical sociological problem of modern meaninglessness *Jewish Polity and American Civil Society* Alan Mittleman, Robert A. Licht, Jonathan D. Sarna, 2002 Jewish Polity and American Civil Society is a study of the civic and political engagements of American Jews as mediated by their communal and denominational institutions The book explores how the various branches of the organized Jewish community seek to influence public affairs Over the course of the last century Jewish agencies and religious movements have tried to shape public debate and public policy on such issues as civil rights church state relations and American foreign policy The book sets the history of Jewish engagement in these areas into historical context analyzes the motives strategies and tactics of various Jewish groups and evaluates their successes and failures The book also explores the underlying idea the public philosophy that informs American Jews understanding of civic and political engagement *Spirituality and Art Therapy* Mimi Farrelly-Hansen, 2001-03-15 The book is an exciting exploration of the different ways in which the spiritual forms an essential life enhancing component of a well rounded therapeutic approach The contributors explain how their own spiritual and creative influences interact finding expression in the use of art as a healing agent with specific populations *Complete Idiot's Guide to Understanding Buddhism* Gary

Gach,2004 Enlightenment has never been easier than with this updated guide to Buddhism 432 pp *The Dying Time* Joan Furman,David McNabb,1997 that addresses equally the concerns of those who are dying and those who have committed themselves to meeting their physical emotional and spiritual needs The choice of home hospital or hospice care the importance of basic nursing skills and recognizing the signs of a failing body are all considered with frankness and sensitivity
