The Miocene Arrow Sean McMullen, 2000-08-19 The balance of power in the war between the Australians and the Americans is tipped by the ultimate weapon The Miocene Arrow **Eyes of the Calculator** Sean McMullen, 2003-12-07 Two thousand years in the future the Dragon Librarians of Australica have just one means to hold their world together kidnap every numerate person on their continent and rebuild their out of date human powered computer the Calculator *Souls in the Great Machine* Sean McMullen, 2002-12-15 The great Calculator of Libris was forced to watch as Overmayor Zarvora had four of its components lined up against a wall and shot for negligence Thereafter its calculations were free from errors and that was just as well for only this strangest of calculating machines and its two thousand enslaved components could save the world from a new ice age And all the while a faint mirrorsun hangs in the night sky warning of the cold to come In Sean McMullen's glittering dynamic and exotic world two millennia from now there is no more electricity wind engines are leading edge technology librarians fight duels to settle disputes steam power is banned by every major religion and a mysterious siren Call lures people to their death Nevertheless the brilliant and ruthless Zarvora intends to start a war in space against inconceivably ancient nuclear battle stations Unbeknownst to Zarvora however the greatest threat to humanity is neither a machine nor a force but her demented and implacable enemy Lemorel who has resurrected an obscene and evil concept from the distant past Total War Souls in the Great Machine is the first volume of Sean McMullen's brilliant future history of the world of Greatwinter *Keys to the Dragon Machine* Sean McMullen, 2025-11-01 The Greatwinter Series by Sean McMullen has a unique and somewhat complex publishing history reflecting its development across both Australian and international markets The series originated as short stories before evolving into novels The first two books Voices in the Light 1994 and Mirrorsun Rising 1995 were initially published in Australia by Aphelion Publications These two works were later significantly revised combined and released as a single volume Souls in the Great Machine 1999 which served as the American debut and the first book in the internationally recognized trilogy The subsequent books in the trilogy are The Miocene Arrow 2000 and Eyes of the Calculator 2001 both were published by Tor in the United States The Greatwinter series is celebrated for its blend of post apocalyptic steampunk and cyberpunk elements as well as its imaginative narrative structure *Age and Diagenesis of the Upper Floridan Aquifer and the Intermediate Aquifer System in Southwestern Florida* Lucy McCartan, Suzanne D. land During the nineteenth century it was envisioned much as the moon and Mars are today a distant and uncharted place with hidden possibilities for explorations and adventures The continent captured the imagination of European writers in the 1800s and with its settlement Australia became the setting for tales of lost worlds and ancient civilizations Australia has since developed a rich national literature and perhaps because of its novelty and wilderness it has inspired numerous science fiction writers This book provides a critical survey of the history of Australian science fiction from its nineteenth century origins to the present The volume proceeds chronologically with an introductory section on the origins of Australian science fiction before 1925 It then turns to the rise of traditional science fiction in Australia from 1926 to 1959 with discussions of such writers as James Morgan Walsh Norma Hemming and Wynne Whiteford A section on the period from 1960 to 1974 examines the growing national recognition given to such Australian science fiction writers as David Rome and Jack Wodhams while a section on science fiction between 1975 and 1984 reviews the rise of small presses and the growth of literary criticism of the genre in Australia A final section addresses the maturation of Australian science fiction from 1985 to 1998 with attention to Aussiecon Two Extensive bibliographic information concludes the volume
