**Framing Russian Art** Oleg Tarasov, 2012-01-01 The notion of the frame in art can refer not only to a material frame bordering an image but also to a conceptual frame Both meanings are essential to how the work is perceived In *Framing Russian Art* art historian Oleg Tarasov investigates the role of the frame in its literal function of demarcating a work of art and in its conceptual function affecting the understanding of what is seen The first part of the book is dedicated to the framework of the Russian icon Here Tarasov explores the historical and cultural meanings of the icon's setting and of the iconostasis Tarasov's study then moves through Russian and European art from ancient times to the twentieth century including abstract art and Suprematism Along the way Tarasov pays special attention to the Russian baroque period and the famous nineteenth century Russian battle painter Vasily Vereshchagin This enlightening account of the cultural phenomenon of the frame and its ever changing functions will appeal to students and scholars of Russian art history *A History of Russian Symbolism* Avril Pyman, 2006-03-09 This book is the first detailed history of the Russian Symbolist movement from its initial hostile reception as a symptom of European decadence to its absorption into the mainstream of Russian literature and eventual disintegration It focuses on the two generations of writers whose work served as the seedbed of Existentialism in thought and of Modernism in prose and the performing arts and reassesses their achievements in the light of modern research At the centre of the study are the texts themselves with prose quoted in English translation and poetry given in the original Russian with prose translations There is a valuable bibliography of primary sources and an extensive chronological appendix This book will fill a long felt gap and will be invaluable to students and teachers of Russian and comparative literature Symbolism Modernism and pre revolutionary Russian culture *Where Is My Home?* Musya Glants, 2010-11-10 *Where Is My Home* The Art and Life of the Russian Jewish Sculptor Mark Antokolskii 1843-1902 is the first full length study in English of the art and life of Mark Antokolskii the widely recognized Russian and European sculptor of the late 19th century An originator of novel trends in sculpture in its transition to modernism Antokolskii was the first artist of Jewish origin to attend the Academy of Art in St Petersburg and to become an honorable member of the Russian and Western intellectual milieu Participating in many International World Exhibitions he received numerous awards including the Legion d'Honneur 1878 Paris Antokolskii was a member of many European academies of art and his works are in museums and private collections worldwide *Where Is My Home* focuses on Antokolski's artistic uniqueness and his fate as a Jewish intellectual who belongs to distinct cultures Musya Glants pays particular attention to Antokolski's constant struggle between his devotion to Russia and the lifelong commitment to his people This opens ways to discuss less known aspects of the notions of national identity and spiritual duality It is an attempt to give an account of the artist as a notable Jewish social and cultural figure a thinker and essayist whose art reveals his longing for people's reconciliation and overcoming of historical alienation *Rethinking the Russo-Japanese War, 1904-5*, 2007-05-17 Despite the growing number of publications on the Russo

Japanese War an abundance of questions and issues related to this topic remain unsolved or call for a reexamination This 30 chapter volume the first in the two volume project Rethinking the Russo Japanese War provides a comprehensive reexamination of the origins of the conflict the various dimensions of the nineteen month conflagration the legacy of the war and its place in the history of the twentieth century Such an enterprise is not only timely but unique It has benefited from a multinational team of thirty two scholars from twelve nations representing a broad disciplinary background The majority of them focus on topics never researched before and without exception provide a novel and critical view of the war This reexamination is of course facilitated by a century long perspective as well as an impressive assortment of primary and secondary sources many of them unexplored and in a number of cases unavailable earlier Alexander Dovzhenko Bohdan Y. **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library,1988 *Holy Fathers, Secular Sons* Laurie Manchester,2008 Holy Fathers Secular Sons is the first study of the Orthodox clergy s contribution to Russian society Prior to the 1860s clergymen s sons were not allowed to leave the castelike clergy in large numbers When permission was granted they responded by entering free professions and political movements in droves Challenging the standard view of educated pre revolutionary Russians as largely westernized secular and patricidal Laurie Manchester demonstrates that the clergymen s sons did retain their fathers values This was true even of the minority who became atheists Drawing on the clergy s commitment to moral activism anti aristocratism and nationalism clergymen s sons believed they could and should save Russia The consequence was a cultural revolution that helped pave the way for the 1917 revolutions Using a massive array of previously untapped archival and published sources including lively first hand autobiographical writings of over two hundred clergymen s sons Manchester constructs a composite biography of their

childhoods educations and adult lives In a highly original approach she explores how they employed the image of the clerical family to structure their political professional and personal lives Manchester s work provides a window into an extremely significant but little known world of Russian educated culture while contributing to histories of lived religion private life and memory as well as to debates over secularization modernity and revolution Holy Fathers Secular Sons powerfully challenges the assumptions that radical change cannot be inspired by tradition and that the modern age is inherently secular
