Mohan Mathew,2000      **Dialogues on Miracle** Robert A. Larmer,2015-03-11 This book explores in a manner that is readily accessible to those with little or no formal training in philosophy or theology important questions concerning the rationality of belief in miracles This book employs the time honored literary device of dialogue a practice that dates as far back as Plato Done well this form of philosophical investigation puts forward a thesis yet genuinely engages with the views its author opposes These dialogues are intended to provide a philosophical defense of the possibility of rationally justified belief in miracles Such a defense can legitimately dispense with much of the paraphernalia that professional scholars in a discipline use in writing for other professional scholars in their discipline some scholarly texts seem to be more references than argument but it must not dumb down the material by oversimplifying the issues or presenting straw man versions of the arguments it seeks to refute My hope is that not only those who are already convinced of the rationality of belief in miracles will read this book but also those who are unconvinced      **The Miracle Od Dialogue** Reuel L. *Questions of Miracle* Robert A. H. Larmer,1996 This collection of essays explores new avenues in the ongoing debate on

miracles and illuminates various theological and philosophical issues      Dialogue in the Book of Signs Johnson Thomaskutty, 2015-07-14 Dialogue in the Book of Signs offers a polyvalent analysis of John 1 19 12 50 at the micro meso and macro levels With the help of several synchronic methods including genre narrative rhetorical and dramatic studies the author analyzes the content form and function of John s dialogue Thus the divine human dialogue which is interwoven within the text provides a key to the understanding of the dialogue between the narrator and the reader In this volume after setting a background and a theoretical framework an extensive exploration of dialogue at the exchange episode and narrative levels is offered The connection of dialogue with other literary aspects such as monologues signs I AM sayings and metaphors is also established Thus this study provides a comprehensive understanding of dialogue in John 1 12      **The Creative Years and the Miracle of Dialogue** Reuel L. Howe, 1959      **Miracles** Luke Timothy Johnson, 2018-07-24 Miracles are not confined to the stories of Scripture these signs of God s presence and power in creation are experienced throughout our daily existence Yet cultural challenges and modernity s skepticism have marginalized belief in them as unreasonable and irrational says Luke Timothy Johnson In this excellent resource for church professionals Johnson reclaims Christian belief in miracles as integral to recovering a proper and strong sense of creation recognizing the validity of personal experience and narrative and asserting the truth telling quality of myth His analysis includes a description of the competing symbolic worldviews that have framed the discussion on miracles including secular debates and theological imagination interpretation of miracles consonant with the biblical construction of reality in the Old and New Testaments suggestions for four areas in the church s life teaching preaching prayer and pastoral care that can work together to shape a symbolic world within which believers can expect perceive and celebrate the miracles in everyday life      *Miracles Happen in Group Bible Study* Albert J. McCormick, 2012-09-25 Hundreds of millions of people believe that Jesus came back from the dead This cogent forcefully argued book presents a decidedly unpopular view namely that the central tenet of Christianity the resurrection of Jesus is false The author asks a number of probing questions Is the evidence about Jesus as it has been relayed to us over the centuries of sufficient quantity and quality to justify belief in the resurrection How can we accept the resurrection but reject magic at the Salem witch trials What light does contemporary research about human rationality from the fields of behavioral economics empirical psychology cognitive science and philosophy shed on the resurrection and religious belief Can we use contemporary research about the reliability of people s

beliefs in the supernatural miracles and the paranormal to shed light on the origins of Christianity and other religions Does it make sense that the all powerful creator of the universe would employ miracles to achieve his ends Can a Christian believe by faith alone and yet reasonably deny the supernatural claims of other religions Do the arguments against Christianity support atheism By carefully answering each of these questions this book undermines Christianity and theism at their foundations it gives us a powerful model for better critical reasoning and it builds a compelling case for atheism Without stooping to condescension or arrogance the author offers persuasive arguments that are accessible thoughtful and new
