Miracles And Other Ordinary Things:

Miracles... and Other Ordinary Things Lana Ford,1995-10-01 What do you feel when a physician tells you that you have a brain tumor and that you are going to die in a few months How do you cope with two children under the age of three when the tumor leads to blindness How do you make sense of your life when the physician angry that you didn't die mumbles that he will now have to treat you as if you have multiple sclerosis Lana Ford was faced with these questions and began to answer them one by one over a two year period She was forced to examine the meaning of life to sort through her beliefs about health and illness living and dying and to discard all the cultural programming she had accepted since childhood Then she began to play with inventing other realities visualizing the internal workings of her own body and refusing to believe in anything outside her own experience She trusted only the inner wisdom found in meditation including exploration of past lives and conversations with angels Her body began healing and within months she was symptom free and has remained so for more than twenty years Yet at the time she knew in her heart that no one would believe her story In the twenty years following her illness she has been a seeker of wisdom finding information from ancient texts asking for translations of the Hebrew she found herself chanting studying with eminent astrologers theologians shamans quantum physicists and those on the leading edge exploring realms of consciousness With both humor and scientific evidence she shares the wisdom she found that miracles lie in the mysterious interpretations we make of the events in our own lives and the connections we make with each other

The Extraordinary Healing Power of Ordinary Things Larry Dossey,2007-06-05 Every day modern medicine announces the arrival of yet another wonder drug or miracle procedure to a world increasingly wary of expensive high tech cures Drugs transplants and surgery don't work for 90 percent of our aches and pains and while we are grateful for life saving developments we know that most come with risks that we ignore at our peril Long hailed as one of the founding fathers of mind body medicine Larry Dossey directs our attention to simple sources of healing that have been available for centuries treasures often hidden in plain sight from the power of optimism and of tears to speed recovery to the surprising usefulness of dirt and bugs in curing disease and infection to the benefits of doing nothing Exploring the medical research that validates these simple remedies Dossey encourages us to align ourselves with the wisdom of nature and allow true healing to take place The Extraordinary Healing Power of Ordinary Things can transform our view of what health is all about whether our concern is cancer or the common cold
