The Cambridge Companion to Miracles Graham H. Twelftree, 2011-04-14 This book is a comparative study of miracles in the major world religions and explores the value of miracles in religious belief

### **Saints and Role Models in Judaism and Christianity**

Marcel Poorthuis, Joshua J. Schwartz, 2004-01-01 This volume deals with the role of saints and exemplary individuals in Judaism and Christianity. Although sharing the Hebrew Bible and recognizing the same Biblical figures, these two religions have developed widely divergent perspectives upon the significance of these figures, although there are occasional common motifs and themes. Moreover, even the contrasting themes betray an underlying interaction between both religions, as is clear from the contributions on, for example, Melchizedek, Elijah, the Desert Fathers, Rabbis, on clothing the Apostle Peter in Jewish tradition, the Maccabees in Christian tradition, and the Biblical examples in Saint Antony the Hermit. The book examines Jewish and Christian perspectives upon saints and role models from the Biblical period to the present time. It will be of special importance to scholars and general readers interested in an interdisciplinary approach to theology, rabbinics, history, art history, and much more.

**The Slow Fall of Babel** Yuliya Minets, 2021-12-09 This is the story of the transformation of the ways in which the increasingly Christianized elites of the late antique Mediterranean experienced and conceptualized linguistic differences. The metaphor of Babel stands for the magnificent edifice of classical culture that was about to reach the sky but remained self-sufficient and self-contained in its virtual monolingualism, the paradigm within which even Latin was occasionally considered just a dialect of Greek. The gradual erosion of this vision is the slow fall of Babel that took place in the hearts and minds of a good number of early Christian writers and intellectuals who represented various languages and literary traditions. This step-by-step process included the discovery and internalization of the existence of multiple other languages in the world, as well as subsequent attempts to incorporate their speakers meaningfully into the holistic and distinctly Christian picture of the universe.

**Miracles in Jewish and Christian Antiquity** John C. Cavadini, 1999 The essays collection in this book are the product of the annual year-long seminar on Christianity and Judaism in Antiquity held in the Department of Theology at the Univ. of Notre Dame. Each is a study of some aspect of the miraculous relevant to the Bible and associated literature or to rabbinic or patristic literature, which together range in focus from theoretical issues of the miraculous to single passages from the literature of the miraculous with consideration of everything in between.

**Markan Typology** Jonathan Rivett-Robinson, 2022-11-17 Responding to the belief that typology was a later development of the early church and not applicable to the earliest canonical Gospel, Jonathan Robinson stresses that typology has deep Jewish roots and that typological modes of thought were a significant part of the Gospel's historical and cultural background. He brings this insight to bear on four of the most dramatic miracles in Mark's Gospel, discovering a surprisingly consistent typological approach. Essential to Robinson's argument is the discovery of distinctive words and phrases taken from the Septuagint that serve as unique indicators of Mark's intent to refer back to miracles from the Jewish scriptures.

pointing to influence from Jonah David Elisha and Moses These references in turn provide insight into Mark s Christology revealing that Mark presents Jesus as both the fulfilment of scriptural human types and as assuming the narrative form of Israel s God Robinson argues that rather than imposing categories extracted from earlier Jewish literature like divine identity and exalted human figures Mark should be allowed to speak on its own terms and with its own unique voice
