Unarmed Insurrections Kurt Schock, In the last two decades of the twentieth century a wave of people power movements erupted throughout the nondemocratic world In South Africa the Philippines Nepal Thailand

Burma Myanmar China and elsewhere mass protest demonstrations strikes boycotts civil disobedience and other nonviolent actions were brought to bear on a rigid political status quo Kurt Schock compares the successes of the antiapartheid movement in South Africa the people power movement in the Philippines the pro democracy movement in Nepal and the antimilitary movement in Thailand with the failures of the pro democracy movement in China and the anti regime challenge in Burma Schock develops a synthetic framework that allows him to identify which characteristics increase the resilience of a challenge to state repression and which aspects of a state s relations can be exploited by such a challenge By looking at how these methods of protest promoted regime change in some countries but not in others this book provides rare insight into the often overlooked and little understood power of nonviolent action

Strategic Nonviolent Conflict Peter Ackerman, Chris Kruegler, 1994 Nonviolent action well planned and implemented is shown in this lucid timely and compelling work to effect dramatic outcomes against opponents utilizing violence Ackerman and Kruegler recognize that not all nonviolent efforts meet with success and they are careful to stress that a nonviolent approach involves great risks as well as opportunities It is the effectiveness of the strategies employed which will determine whether those using nonviolent means can prevail against opponents who rely on violence in pursuit of objectives Twelve principles of strategic nonviolence are established in this book they serve as a conceptual foundation and enhance the prospects of success in nonviolent campaigns of resistance The authors also develop six twentieth century examples of nonviolent action from the early Russian Revolution of 1904 1906 through the Solidarity movement in 1980 1981 Each campaign narrative constitutes a fascinating reading experience and illustrates common themes strategies and important aspects of behavior on the part of major participants in nonviolent encounters This is a singularly important book It offers more than a mere plea for nonviolence Ackerman and Kruegler provide hard lessons based on important and often painful historical efforts principles to govern the choice and implementation of strategies when nonviolence is the determined response and insightful analysis to guide assessment and policy Finally the authors consider the evolving international situation and relate current themes and policies to the potential inherent in astute and deliberate programs of nonviolence A work which will focus analysis impact decision making stimulate policy consideration and invigorate research this volume will well serve professionals and students in international relations and numerous related fields
