Nonlethal Weapons War Without Death:

Nonlethal Weapons David Morehouse, 1996-12-09 Presenting alternative methods of conflict resolution this examination of the philosophy of peace presents nonlethal weaponry as a solution to the destructiveness of war Conventional lethal weapons and weapons of mass destruction evolved into an unprecedented 900 billion dollar a year defense industry This industry and its war makers have taken the lives of an estimated 170 million human beings in this century A new approach appropriate to the new world order must be found This study provides a historical analysis of weapons and forces in this century and traces the development of nonlethal technologies and weapons It is the first work to present nonlethal weaponry in the framework of recognizable scenarios based on current world events that show the applicability of current available nonlethal weapons and technology to serve as a force to be reckoned with in a highly politicized world Morehouse argues that nonlethal weapons and technology could and should become forces for peace in the 21st century **The Future of**

Non-lethal Weapons Nick Lewer, 2017-09-29 These essays explore the increase in interest in non lethal weapons Such devices have meant that many armed forces and law enforcement agencies are able to act against undesirables without being accused of acting in an inhumane way Topics for discussion in this volume include an overview of the future of non lethal weapons emerging non lethal technologies military and police operational deployment of non lethal weapons a scientific evaluation of the effectiveness of non lethal weapons changes in international law needed to take into account non lethal technologies developments in genomics leading to new chemical incapacitants implications for arms control and proliferation the role of non lethal weapons in human rights abuses conceptual theoretical and analytical perspectives on the nature of non lethal weapons development *Nonlethal weapons terms and references* Robert J. Bunker, 1999 *Bait and Switch* Julie A.

Mertus, 2008-02-19 It has become routine for the US government to invoke human rights to justify its foreign policy decisions and military ventures But this human rights talk has not been supported by a human rights walk Policy makers consistently apply a double standard for human rights norms one the rest of the world must observe but which the US can safely ignore Based on extensive interviews with leading foreign policy makers military officials and human rights advocates Mertus tells the story of how America s attempts to promote human rights abroad have paradoxically undermined those rights in other countries The second edition brings the story up to date including new sections on the second half of the Bush administration and the Iraq War and updates on Afghanistan The first edition of *Bait and Switch* won the American Political Science Association s 2005 Best Book on Human Rights **Forum for Applied Research and Public Policy**, 1999

Nonlethality and American Land Power: Strategic Context and Operational Concepts Douglas C. Lovelace, 1998 As great changes taking place in the global security environment American land power must be adapted to assure it can continue to protect and promote U S national interests This requires the development and integration of a range of new technologies concepts and organizations Among these nonlethality using armed force in a way that minimizes casualties

shows promise for specialized applications To that end the authors discuss nonlethality of armed forces within its larger strategic context and explain how it is related to the revolution in military affairs They then assess the arguments for and against the integration of nonlethality into American doctrine and procedures Finally they offer operational concepts which could serve as the basis for doctrine and for tactics techniques and procedures **Michigan Journal of International Law**,1999 **The Ethics of Non-lethal Weapons** Amy Truesdell,1996 **Disarmament Forum** ,2005 **Georgetown Journal of International Law** ,2005 **Weapons & Warfare** Salem Press,2010 This work features 140 chronologically arranged overviews of the history of weaponry and military tactics from ancient times to the present global age Originally published in 2002 Weapons and Warfare is designed to meet the needs of students seeking information about weaponry tactics and models of warfare from ancient times to the present worldwide Written with the needs of students and general readers in mind the articles contained in this set present clear discussions of the topics explaining any terms or references that may be unclear The focus on the technical and strategic development of weapons and tactics more than on a narrative chronological history of events allows students of history political science science and technology alike to gain a broad understanding of the technological and strategic advances made over time and geography The new third volume adds the essential dimension of placing these topics in broad social cultural and ethical contexts Approximately 140 topics arranged chronologically and thematically with volume 1 Ancient and Medieval covering weapons and strategies from ancient times to 1500 volume 2 The Modern Era covering weapons and strategies from approximately 1500 to the present and volume 3 Warfare Cultural and Concepts providing valuable overviews of the way warfare weapons and military history have been expressed socially politically and in the arts Each essay ranges from 1 500 words to 7 000 words The first two volumes open with overviews of major weapons groups for example in volume 1 Clubs Maces and Slings Sieges and Siegecraft in volume 2 Swords Daggers and Bayonets Rockets Missiles and Nuclear Weapons followed by chronologically arranged sections covering major historical periods and regions of the world and their contributions to military weapons technologies and strategies Volume three touches on all sociocultural and political aspects of culture society science ethics and basic behind the battlefield theories strategies and policies The essays in this set are organized into three essay types Weapons overview articles are organized with sections on Nature and Use and Development of each weapons type The geographically arranged warfare articles feature sections on Political Considerations where relevant and on Military Achievement Weapons Uniforms and Armor Military Organization Doctrine Strategy and Tactics Warfare articles also feature a section on the primary sources from which historians base their observations and evaluates the best sources for understanding the warfare of the period Culture concept overviews new approach warfare and weaponry from several different perspectives sociological geographical cultural ritual political ethical religious tactical and strategic *Paying the Human Costs of War* Christopher Gelpi,Peter Feaver,Jason Aaron Reifler,2009 The book finds that the most important consideration for the public is the

expectation of success If the public believes that a mission will succeed the public will support it even if the costs are high When the public does not expect the mission to succeed even small costs will cause the withdrawal of support Providing a wealth of new evidence about American attitudes toward military conflict Paying the Human Costs of War offers insights into a controversial timely and ongoing national discussion **New Roles of Military Forces** Bertel Heurlin,2003

Proceedings of the ... Pugwash Conference on Science and World Affairs ,1998 **How to Make War (Fourth Edition)** James F. Dunnigan,2003-04-01 An indispensable guide to how wars are fought James F Dunnigan s classic text has been enormously popular with citizens professional soldiers and journalists alike Now it s been revised to include a stunning array of new subjects From the cutting edge of cyberwar to the current concern about terrorism How to Make War presents a clear picture of complex weapons armed forces and tactics Describing a new world order one with a greater number of equipped players than the Big Two the United States and the former Soviet Union this updated edition features all the elements of traditional warfare along with a discussion of terrorist techniques nuclear chemical and biological weapons and Third World ballistic missiles Past editions of How to Make War were chillingly accurate in assessing and predicting the outcomes of all the major conflicts in the past two decades Loaded with expertise and the latest information this edition is an essential reference for any military library and a work that forewarns and forearms the Free World for the conflicts ahead *Journal of Peace Research* ,1999 **Armed Forces Chemical Journal** ,1960 **Information Service on the Unification Question of the Korean Peninsula** ,1995 *The Journal of Military History* ,1997 **United States Naval Institute Proceedings** ,2004
