Enseñanza y aprendizaje de la historia Henry Pluckrose, 1996 Las dimensiones históricas en el currículum de educación primaria tienen como objetivo facilitar una comprensión de la humanidad de su progreso y problemas. Enfrentar a niñas y niños con diferentes culturas con otros períodos históricos, lugares y personas sirve para promover procesos de reflexión en torno a las razones y el origen de muchos de los conocimientos, valores, conductas y actitudes vigentes en su entorno específico y en la sociedad en general. En la educación primaria, el alumnado debe ejercitarse en organizar la información del presente teniendo también en cuenta perspectivas históricas; necesita aprender a explicar y evaluar determinados sucesos del pasado para poder comprender el momento actual. En los diseños curriculares de primaria es necesario atender a conceptos y destrezas importantes para el pensamiento histórico, como cronología, cambio y continuidad, causa y efecto, la habilidad para sopesar evidencias y aprender también a dudar, a desarrollar la capacidad de empatía con otras personas y pueblos del pasado, etc.

Henry PLUCKROSE, poseedor de una amplia experiencia en la enseñanza de la historia en educación primaria, ofrece en este libro al profesorado numerosas propuestas de trabajo para desarrollar en las aulas con el propósito de entusiasmar a niñas y niños con esta temática y ayudarles a reconstruir su historia propia y colectiva.

Didáctica de la historia en la educación infantil y primaria Hilary Cooper, 2002 Esta obra constituye una guía innovadora y accesible para ayudar a niñas y niños pequeños a examinar el pasado a través de los recursos de su entorno: la historia de su familia y los relatos. Hilary COOPER nos ofrece aquí orientaciones para presentar y trabajar el pasado en el segundo ciclo de la educación infantil y en los primeros ciclos de educación primaria. Asimismo, proporciona las bases teóricas necesarias y la suficiente ayuda práctica para traducir los principios a experiencias relevantes y generar aprendizajes verdaderamente significativos. Los estudios de casos que aporta son un buen ejemplo de las posibilidades de este tipo de trabajo en las aulas, al tiempo que con ellos se refuerzan los resultados de las investigaciones más recientes sobre la enseñanza y el aprendizaje de la historia. El libro servirá de valiosa ayuda tanto al profesorado y al alumnado de las Facultades de Educación y las Escuelas de Magisterio como a todos aquellos profesionales interesados en el desarrollo del sentido de la identidad en la infancia mediante la historia. La autora estimula al colectivo docente para que haga de la historia una dimensión significativa de la educación desde los primeros años de la escolarización. Hilary COOPER es profesora de Educación del St Martin's College de Lancaster, Reino Unido.
