The New Math SAT Game Plan
 Philip Keller, 2016-03-07. The New Math SAT Game Plan is Phil Keller's classic refreshing and somewhat subversive guide to the math SAT updated to meet the challenges of the revised SAT. As you follow the Game Plan he maps out you will learn a more creative way to approach this test while also reviewing all of the necessary math content. You will learn the best way to manage your time and maximize your score. And of course Keller still teaches those classic methods that will help you to evade some of the algebra on this test. You can see more about The New Math SAT Game Plan at Mr K's blog www.advancedmathyoungstudents.com. Be sure to check out the Alternative Solutions to the Official Practice Tests. Here are some excerpts from reader reviews of the previous edition. These were all from verified purchasers you can still see the old listing on Amazon if you don't believe me. NelMom said: After less than two weeks of concentrated practice using this book she did the SAT test for the 3rd time. Her math score shot up 150 points from her highest previous score. The improvement in her score pushed her to a level that qualifies for merit scholarships and Honors Colleges. Thus far our 16.95 investment has translated into 4 year merit scholarship offers from 3 schools equal to a total of over 200,000 and we haven't even heard from the rest of the colleges yet. So I can honestly say that buying this book has been the single best financial investment I have ever made. The book is nothing less than BRILLIANT. PHYSICS BOSS said: Awesome SAT and PSAT math book.
