*Take It to Your Seat: Common Core Math Centers, Grade 6+* Evan-Moor Educational Publishers, 2013

Help your sixth graders master key math skills and provide differentiated math practice through fun hands on activities in 12 centers. Each full color center focuses on a skill from a Common Core State Standards math domain such as numbers and counting operations, geometry and probability and statistics. The easy to assemble centers are stored in pocket folders making them easy to use at a table desk or quiet area in the classroom. After a teacher or classroom aide models how to use a center, students can complete the activity independently in pairs or with the teacher who may use the task to informally assess a student's understanding. Each of the 12 centers includes full color center mats and task cards, an overview with lesson objectives, a student direction page that explains the center activity, a response form or written practice activity, a center checklist to record each student's progress. *Take It to Your Seat: Common Core Math Centers* has been updated to address the new advanced standards and provides an increase in the variety and complexity of activities to practice each skill in alignment with Common Core State Standards leveled tasks within some centers so that tasks progress in difficulty, an illustrated math concept or rule for every center to support visual learners and keep the focus on the targeted math concept or skill.
