Artificial Intelligence and Evaluation
Steffen Bohni
Nielsen, Francesco Mazzeo, Rinaldi, Gustav Jakob Petersson, 2024-09-25 Artificial Intelligence and Evaluation Emerging

Technologies and Their Implications for Evaluation is a groundbreaking exploration of how the landscape of program evaluation will be redefined by artificial intelligence and other emerging digital technologies. In an era where digital technologies and artificial intelligence AI are rapidly evolving, this book presents a pivotal resource for evaluators navigating the transformative intersection of their practice and cutting edge technology. Addressing the dual dimensions of how evaluations are conducted and what is evaluated, a roster of distinguished contributors illuminate the impact of AI on program evaluation methodologies. Offering a discerning overview of various digital technologies, their promises and perils, they carefully dissect the implications for evaluative processes and debate how evaluators must be equipped with the requisite skills to harness the full potential of AI tools. Further, the book includes a number of compelling use cases demonstrating the tangible applications of AI in diverse evaluation scenarios. The use cases range from the application of GIS data to advanced text analytics. As such, this book provides evaluators with inspirational cases on how to apply AI in their practice as well as what pitfalls one must look out for. *Artificial Intelligence and Evaluation* is an indispensable guide for evaluators seeking to not only adapt to but thrive in the dynamic landscape of evaluation practices reshaped by the advent of artificial intelligence. *Challenges of the Modern Economy* Yakhya G. Buchaev, Arsen S. Abdulkadyrov, Julia V.

Ragulina, Arutyun A. Khachaturyan, Elena G. Popkova, 2023-07-03. The book focuses on a systemic study of the challenges of the modern economy and related problems and areas of sustainable development of countries, regions and businesses, with particular attention paid to the new prospects offered by the spread of digital technology. The book's contribution to the literature is that it reveals the specifics and digital perspectives of supporting the SDGs in the economy at every level of the economy: country, regional and corporate, considering sectoral specificities. This is reflected in six parts of the book. Part 1 identifies contemporary challenges of the modern economy as barriers to sustainable development. Part 2 reflects the future direction of sustainable development of the countries. Part 3 considers the problems and prospects for sustainable development of regions. Part 4 focuses on the problems and prospects for the sustainable development of enterprises and industries. Part 5 sheds light on the economic and legal foundations and cooperative mechanisms of sustainable development. Part 6 offers recommendations for enhancing the use of digital technologies offered by Industry 4.0 to support the SDGs. Scientists whose research interests include sustainable economic development are the primary target audience for this book. For the primary target audience, the book forms a systemic view of the global challenges of sustainable development and offers a set of scientific and methodological recommendations to provide an effective response to these challenges at every level of the economy. An additional audience for the book is practicing experts who will find international best practices and applied recommendations to support sustainable economic development and implementation of the SDGs in the practice of state, national regulation and public administration of the region and corporate in various industries management.
