Becoming a Reading Teacher Jane Spiro, Amos Paran, 2023-04-10 This book encourages readers to think about reading not only as an encounter with written language but as a lifelong habit of engagement with ideas We look at reading in four different ways as linguistic process personal experience collective experience and as classroom practice We think about how reading influences a life how it changes over time how we might return at different stages of life to the same reading how we might respond differently to ideas read in an L1 and L2 There are 44 teaching activities all founded on research that explores the nature value and impact of reading as an authentic activity rather than for language or study purposes alone We consider what this means for schools and classrooms and for different kinds of learners The final part of the book provides practical stepping stones for the teacher to become a

researcher of their own classes and learners The four parts of the book offer a virtuous join between reading teaching and researching It will be useful for any teacher or reader who wishes to refresh their view of how reading fits in to the development of language and the development of a reading life Integrating Young Adult Literature through the Common Core Standards Rachel L. Wadham, Jon W. Ostenson, 2013-01-07 This book advocates for a stronger role for young adult literature in ELA classrooms compellingly documenting how this body of work meets both the needs of adolescent students and the demands of the common core for complex texts and tasks Integrating Young Adult Literature through the Common Core Standards provides a compelling template for teachers that uses young adult literature and inquiry learning to meet students needs and the demands of the common core standards The first part of the book addresses the widely adopted common core state standards by examining closely the standards model of text complexity and demonstrating how young adult literature can fill the requirements of this model The second part provides theoretical discussions and analysis of the standards as well as concrete applications of young adult literature within the classroom in order to give school professionals a comprehensive understanding of how young adult literature and the standards can work together The book empowers schools and teachers to make intelligent informed decisions about texts and instructional practices that benefit their students Finally the authors explore a powerful teaching approach that integrates current understandings about learning young adult literature and the common core standards in a way that will facilitate greater learning and understanding in English classrooms *The Reading Interests and Habits of Adults* William Scott Gray, Ruth Learned Munroe, Carnegie Corporation of New York, 1929 *The Yearbook of the National Society for the Study of Education* National Society for the Study of Education.
