The infodemic based on the pandemic COVID 19 is another serious challenge for the world at this time. Each flare up is joined with a large volume of data and information; however, this data can be based on deception, gossip, rumors, and more. Misinformation not only impacts the human body negatively but also impacts mental health. The infodemic has an impact on human health and professional performance but also leaks into business organizations in terms of financial matters, employees' psychological and physical health, employee performance, and the organization's performance. The misinformation regarding health issues can disturb business organizations and affect the employees' organizations' market share and financial matters, future firing and hiring policies of the organizations, and international operations of the companies. Though the COVID 19 pandemic may be over in time, the impact of the relevant infodemic will continue to disrupt business organizations for several years into the future. [Impact of Infodemic on Organizational Performance](#) highlights the impact of the infodemic due to the pandemic COVID 19 in organizations' performance and enhances the understanding of how the infodemic can and has negatively impacted employees as well as organizational performance.
