Social Trauma, Narrative Memory, and Recovery in Japanese Literature and Film David Stahl,2019-07-02 This book provides a comprehensive analysis of major works in Japanese literature and film through the interpretive lens of trauma and PTSD studies Focusing critical attention on the psychodynamics and enduring psychosocial aftereffects of social trauma it also evaluates the themes of dissociation failed mourning and psychological defence fantasies Building on earlier studies this book emphasizes the role of protagonists in managing to effect partial recovery by composing memoirs in which they transform dissociated traumatic memory into articulate narrative memory or bring about advanced recovery by pioneering alternative means of orally communicating working through and overcoming debilitating personal histories of traumatization and victimization In so doing Stahl also demonstrates that what holds true on the individual and microcosmic level also does so on the collective and macrocosmic level This new critical approach sheds important new light on canonical Japanese novels and films and enables recognition and appreciation of integral psychosocial aspects of these traumatic narratives As such the book will be of huge interest to students and scholars of Japanese film and literature as well as those of trauma studies

Re-Authoring Life Narratives After Trauma: A Holistic Narrative Model of Care Charles B.

Manda,2019-12-12 Re authoring Life Narratives after Trauma is an interdisciplinary specialist resource for traumatic stress researchers practitioners and frontline workers who focus their research and work on communities from diverse religious backgrounds that are confronted with trauma death illness and other existential crises This book aims to argue that the biopsychosocial approach is limited in scope when it comes to reaching a holistic model of assessing and treating individuals and communities that are exposed to trauma The holistic model must integrate an understanding of and respect for the many forms of religion and spirituality that clients might have Pargament 2011 It will not only bring a spiritual perspective into the psychotherapeutic dialogue but it will also assist in dealing with the different demands in pastoral ministry as related to clinical and post traumatic settings The book makes several contributions to scholarship in the disciplines of although not limited to traumatic stress studies pastoral care and counselling psychology and psychiatry Firstly the book brings spirituality into the psychotherapeutic dialogue traditionally religious and spiritual topics have not been a welcome part of the psychotherapeutic dialogue Secondly it underscores the significance of documenting literary narratives as a means of healing trauma writing about our traumas enables us to express things that cannot be conveyed in words and to bring to light what has been suppressed and imagine new possibilities of living meaningfully in a changed world Thirdly it proposes an extension to the five stage model of trauma and recovery coined by Judith Herman

Positive Psychiatry, Psychotherapy and Psychology Erick Messias,Hamid Peseschkian,2025-10-16 This book offers a holistic integrative resource oriented and preventive perspective on psychotherapy psychiatry and psychology There is great urgency in developing resources and

potential in our patients not only in freeing them from their disorders. Pandemics, wars, international terrorism, climate catastrophes, escalating nationalism in numerous countries, economic crises, a pervasive distrust of governments, institutions, and even fellow citizens, along with a surge in addictive behavior towards social media, just to name a few, major factors have contributed to a notable increase in mental disorders, the prescription of psychotropic drugs, suicidality, loneliness, and depression. The fully revised and expanded second edition brings together 76 authors from 19 countries and 5 continents who collectively share their experiences in the clinical application of positive mental health across more than 55 chapters. Twenty-two new chapters have been added, addressing emerging topics and contemporary issues. These include insights into practicing psychotherapy in Ukraine and Ethiopia, countries deeply affected by wars; multiple chapters dedicated to trauma; the Chinese perspective on navigating the Covid-19 pandemic and its effects; understanding the LGBTQ community; the experience of online therapy since the outbreak of the Covid-19 pandemic; and exploration of disorders such as autism, chronic pain, death and grieving, and suicide. All authors are practicing psychotherapists in their respective countries, providing firsthand accounts from their daily experiences. Additionally, all 34 chapters from the first edition have been thoroughly updated to ensure the content remains current and relevant. It remains the only international textbook which brings together positive psychiatry, positive psychotherapy, and positive psychology. Positive Psychiatry, Psychotherapy, and Psychology: Clinical Applications for Positive Mental Health will be of interest to psychiatrists, psychotherapists, psychologists, social workers, and other mental health professionals. It may be used in educating a new generation of mental health professionals in these tenets that are expanding the reach of psychology, the practice of psychotherapy, and the scope of psychiatry.

Re-embodying Pastoral Theology Johann Choi, 2024-05-29

With the dominance of psychotherapeutic theories and methods in the field of pastoral theology, the typical pastoral encounter has been understood to be a private conference in which a pastor addresses a sufferer's thoughts and emotions. What results is a kind of dualism that is contrary to a historically Christian affirmation of and concern for the body. The phenomenon of moral injury further problematizes this model of pastoral care in part due to a greater awareness that trauma is imprinted as much in the body as in the mind. Re-embodying Pastoral Theology uses the problem of moral injury in veterans to propose a pastoral theology that recognizes ritual as the means by which the Christian community addresses the body in pastoral care.

In advancing this new approach to ritual care the author draws from the fields of psychology ritual studies liturgical studies and historical theology as well as the experiences of veterans throughout history This book endeavors to re think the Christian approach to moral injury and re embody the field of pastoral theology *Richard Garriott's Tabula Rasa* Michael Lummis, 2007-10-24 A New Beginning A Clean Slate You re on the frontlines of an epic war against an alien race bent on galactic conquest Your home world has already fallen and the survival of your species its only chance at a new start rests with a coalition of rebel forces you and your comrades This essential guide teaches you to exploit advanced weapons specialized abilities and harness the very fabric of the cosmos to resist the overwhelming foe known as The Bane Detailed Walkthrough We lead you step by step through missions and instances earn superior gear and advance through the ranks We guide you from green recruit all the way to Tier IV character levels Battlefield Maps Our area maps pinpoint Logos Shrines Vendors Waypoints Hospitals Control Points NPCs and many other crucial locations Know the lay of the land before you deploy Expert Character Creation We teach you the ins and outs of character creation Complete class coverage reveals the pros cons skills and abilities of every AFS career path Equipment Data Our quick reference tables provide stats for weapons armor and more the data you need is always close at hand That s Not All Grouping and Squad Coverage Logos Dictionary Gorgeous Concept Art an Interview with Richard Garriott and Much More Platform PC Genre Role Playing Game This product is available for sale in North America only *Aspinall's Complete Textbook of Veterinary Nursing E-Book* Nicola Lakeman (Previously Ackerman), Victoria Aspinall, 2016-05-31 The third edition of Aspinall s Complete Textbook of Veterinary Nursing is the ideal text for both student and qualified veterinary nurses as it covers the entire veterinary nursing syllabus Now written in the main by veterinary nurses this book comprehensively covers all aspects of the veterinary nursing role from client communication to nutritional support All chapters have been revised in line with changes in legislation and regulation but also theoretical and practical aspects Greater emphasis on the veterinary practice structure including the role of corporate businesses and use of social media bring this edition fully up to date The new edition welcomes Nicola Ackerman as principal editor Nicola is past officer of the BVNA and past executive editor of the Veterinary Nursing Journal Nicola is a winner of several awards including the Blue Cross BVNA Veterinary Nurse of the Year and the Barbara Cooper CAW Professional Development Award for outstanding service to the veterinary nursing profession Nicola was the first Veterinary Nurse in the UK to become a veterinary nurse specialist in nutrition Evolve Resources containing Self assessment questions for every chapter to test learning Image Bank of over 700 figures Additional chapters Comprehensive content ideal for both student and qualified veterinary nurses Over 700 full colour illustrations for enhanced understanding Written by veterinary nurses for veterinary nurses Recommended reading given for each chapter to aid further research New chapters on Emergency Critical care Fluid therapy Practice and Staff management and Consulting skills Anaesthesia and Analgesia chapter fully revised and updated New chapter on Equine Behaviour and Handling including recognition of pain in equines
