Serial Murder and Media Circuses Dirk C. Gibson,2006-07-30 The Axman of New Orleans specialized in killing grocers of Italian descent in the 1910s apparently to promote jazz music Dorothea Puente was a little old landlady who murdered her tenants but kept cashing their government checks The Manson Family terrorized California in the 1960s as did the Hillside Stranglers a decade later Twelve serial murder cases occurring in eight decades between the 1890s and 1990s had one thing in common significant presence of the mass media This book examines these specific cases of serial murder and the way the media became involved in the investigations and trials of each Gibson argues that the American media plays a multidimensional and integral role in serial killings and their investigation and that this role is not generally a positive one Serial murder cases motivate the media in unfortunate ways and the result is that even typically respectable media organizations can be involved in such things as document theft or in interfering with the capture of serial murderers on the run This link between multiple murderers and mass communication is not accidental or coincidental rather the relationship between the press and serial killers is one of extraordinary importance to both parties Gibson examines the role of the media in serial murder cases the body of knowledge on serial murder as seen through the lens of mass communication the effectiveness of law enforcement responses to serial murderers and how they might be improved if the mass communication influence was better understood the magnitude of the serial murder problem and the interaction between the media the killers and serial murder investigations Specific examples and numerous quotes are provided throughout to illustrate this strange and detrimental relationship between media and serial murderers

**Don't Murder Your Mystery** Chris Roerden,2006 For every author whose manuscript gets published there are tens of thousands who are rejected At literary agencies and publishing houses screeners go through piles of submissions searching for original voices attention grabbing characters and writing styles that rise above the rest The piles are large time is short The writer who has labored a year or more on a story may have only a page a paragraph or a sentence read before the screener moves on to the next submission It is this heartbreaking reality that the author who is also an editor and writing teacher addresses in this helpful book Pitched midway between the writing advice books that concentrate on format and grammar and those that outline the large bone mystery basics such as plot character dialogue and creating suspense Don t Murder Your Mystery identifies twenty four aspects of the mystery novel some dealing with the nitty gritty of submissions but most discussing topics to help inexperienced writers improve the quality of their written work Roerden s pitch is to help new writers identify and correct pedestrian mistakes and avoid amateurish writing so they won t be quickly dismissed by screeners What she has created is an essential handbook for writers longing to improve their knowledge of craft and technique
