**William Lines Hubbard**

## **Musical Offerings:**

The Musical Offering and The "Goldberg Variations" Johann Sebastian Bach, 1999-08-26 The Musical Offering dates from a visit of Bach to the court of Frederick II in Berlin where his son Carl Philip Emmanuel was Court Kapellmeister. The King himself a composer mainly for flute gave Bach a theme suitable for a fugue. This was at once elaborated by him into a 3 part fugue. Later on Bach developed this with his own themes and fugues and dedicated the work to the King. Opfer Offering The instruments are mostly not indicated and left to players to decide upon. The Goldberg Variations date from 1742 and were named after Bach's pupil Johann Gottlieb Goldberg who was a chamber musician to one Count Keyserling. The count suffered from insomnia and had Goldberg relax him with music to fall asleep. Goldberg commissioned the Aria with 30 Variations from Bach. Thus we owe this most magnificent of variation works to an aristocrat's physical failing.

**Bach's Art of Fugue and Musical Offering** Matthew Dirst, 2024 The initial volume in a series of American Bach Society Guides. Bach's Art of Fugue and Musical Offering is a comprehensive study of two closely related masterworks of the late Baroque fugal style. This compact guide intended for practitioners, music scholars, and a general readership summarizes a considerable body of knowledge about these famously cerebral collections in an engaging and accessible style. Bach specialist and keyboard player Matthew Dirst explains the Art of Fugue and Musical Offering's idiosyncratic musical language while reviewing how both projects took shape during Bach's final decade. They reflect Bach's lifelong fascination with learned counterpoint as demonstrated in elaborate series of fugues and canons in both and in an unusually intricate trio sonata. In the latter, Dirst provides commentary on individual movements and groups of pieces and on the historical reception of this music, including its impact on other disciplines. Recurring themes include Bach's diligent exploration of contrapuntal types and techniques, his embrace of musical games, and his creative assimilation of diverse musical styles.

*Rethinking J.S. Bach's Musical Offering* Anatoly Milka, 2019-10-04 J.S. Bach's Musical Offering is a broadly known and extensively studied collection of musical pieces written in 1747 shortly after his visit to the Potsdam court of Frederick the Great. The composition, however, survived in separated sheets of different formats and finding the logic of its organization into a cycle became a great challenge for scholars of the following centuries. Based on groundbreaking findings by Christoph Wolff, who revealed the main principles of the Musical Offering's structure as well as those promulgated by Hans Theodor David and more recently by G. Butler, W. Wiemer, R. Tatlow, and many other scholars, this book develops and revises their ideas, arriving at a unique conception of the possible original structure of the Musical Offering. While the rods of the collection do not provoke disagreements among scholars, the ordering of the ten canons, including the Fuga canonica, remains mysterious in many aspects, and this text gives them a close examination. It considers their kinds, thematic and contrapuntal, textual inscriptions, the canons' function within the cycle as vignettes to the main pieces, and their location among other aspects. The volume includes profuse references to historical and cultural context, court etiquette, contrapuntal techniques, the history of the ricercar, expertise in Bach's
