## Oral Trading:

**Trading and Exchanges** Larry Harris, 2003 Focusing on market microstructure Harris chief economist U S Securities and Exchange Commission introduces the practices and regulations governing stock trading markets Writing to be understandable to the lay reader he examines the structure of trading puts forward an economic theory of trading discusses speculative trading strategies explores liquidity and volatility and considers the evaluation of trader performance Annotation c 2003 Book News Inc Portland OR booknews com *Indian-made* Erika Marie Bsumek, 2008 In works of silver and wool the Navajos have established a unique brand of American craft And when their artisans were integrated into the American economy during the late nineteenth century they became part of a complex cultural and economic framework in which their handmade crafts conveyed meanings beyond simple adornment Bsumek unravels the layers of meaning that surround the branding of Indian made When Navajo artisans produced their goods collaborating traders tourist industry personnel and even ethnologists created a vision of Navajo culture that had little to do with Navajos themselves And as Anglos consumed Navajo crafts they also consumed the romantic notion of Navajos as primitives perpetuated by the marketplace These processes of production and consumption reinforced each other creating a symbiotic relationship and influencing both mutual Anglo Navajo perceptions and the ways in which Navajos participated in the modern marketplace Ultimately Bsumek shows that the sale of Indian made goods cannot be explained solely through supply and demand It must also reckon with the multiple images and narratives that grew up around the goods themselves integrating consumer culture tourism and history to open new perspectives on our understanding of American Indian material culture BOOK JACKET *Research, Service, and Education Series* United States.
