## **Oral Tradition Volume 2 Number 1:**

**Oral Tradition, Volume 2, January 1987, Number 1** Walter J. Ong, John Miles Foley, 1987      **Rethinking Oral History and Tradition** Nepia Mahuika, 2019-10-09 Indigenous peoples have our own ways of defining oral history. For many oral sources are shaped and disseminated in multiple forms that are more culturally textured than just standard interview recordings. For others indigenous oral histories are not merely fanciful or puerile myths or traditions but are viable and valid historical accounts that are crucial to native identities and the relationships between individual and collective narratives. This book challenges popular definitions of oral history that have displaced and confined indigenous oral accounts as merely oral tradition. It stands alongside other marginalized community voices that highlight the importance of feminist Black and gay oral history perspectives and is the first text dedicated to a specific indigenous articulation of the field. Drawing on a Maori indigenous case study set in Aotearoa New Zealand, this book advocates a rethinking of the discipline, encouraging a broader conception of the way we do oral history, how we might define its form, and how its politics might move beyond a subsuming democratization to include nuanced decolonial possibilities.

**The Life of Christ: book 1. The sources. book 2. The preparation** Bernhard Weiss, 1883      **Oral Tradition**, 1987      **101 Middle Eastern Tales and Their Impact on Western Oral Tradition** Ulrich Marzolph, 2020-08-18 A comprehensive exploration of the Middle Eastern roots of Western narrative tradition. Against the methodological backdrop of historical and comparative folk narrative research, 101 Middle Eastern Tales and Their Impact on Western Oral Tradition surveys the history, dissemination, and characteristics of over one hundred narratives transmitted to Western tradition from or by the Middle Eastern Muslim literatures, i.e. authored written works in Arabic, Persian, and Ottoman Turkish. For a tale to be included, Ulrich Marzolph considered two criteria: that the tale originates from or at least was transmitted by a Middle Eastern source and that it was recorded from a Western narrator's oral performance in the course of the nineteenth or twentieth century. The rationale behind these restrictive definitions is predicated on Marzolph's main concern with the long-lasting effect that some of the Oriental narratives exercised in Western popular tradition: those tales that have withstood the test of time. Marzolph focuses on the originally Oriental tales that became part and parcel of modern Western oral tradition. Since antiquity, the Orient constitutes the quintessential Other vis-à-vis the European cultures. While delineation against this Other served to define and reassure the Self, the Orient also constituted a constant source of fascination, attraction, and inspiration. Through oral retellings, numerous tales from Muslim tradition became an integral part of European oral and written tradition in the form of learned treatises, medieval sermons, late medieval fabliaux, early modern chapbooks, contemporary magazines, and more. In present times, when national narcissisms often acquire the status of strongholds delineating the Us against the Other, it is imperative to distinguish, document, visualize, and discuss the extent to which the West is not only indebted to the Muslim world but also shares common features with Muslim narrative tradition. 101 Middle Eastern Tales and Their Impact on Western Oral Tradition is an

important contribution to this debate and a vital work for scholars students and readers of folklore and fairy tales
