## Orange Trees Of Versailles:

**The Orange Trees of Versailles** Annie Pietri, 2009-04-23 When Marion Dutilleul enters the service of the Marquise de Montespan she never imagines that her ability to recognize scents and to blend them into perfumes will win her the favor of Louis XIV's mistress. But the marquise quickly has the young girl creating new perfumes for her. Eager to please and hopeful that her olfactory gifts will win her recognition, Marion concocts memorable fragrances. Then to her horror credit is bestowed on someone else. Marion feels betrayed. Now Marion opens her eyes and ears in addition to her nose and realizes that beneath the splendor of palace life is a place teeming with deceit. To survive she must use her keen sense of smell not to create perfumes but to thwart those who would do her harm.

## Orange Trees

**of Versailles** Annie Pietri, 2005-11-01 In the 1670s fourteen year old Marion who has a talent for making perfumes gets the chance to serve Louis XIV's mistress at the palace of Versailles where she gets caught up in palace intrigue.

## Glasshouses

Fiona Grant, 2013-07-10 Since the early seventeenth century when the cultivation of exotic plants and fruit became fashionable in northern Europe glasshouses have offered an artificial climate in which they could flourish. At first these structures were within reach only of the very richest and growing one's own oranges, orchids, pineapples or bananas was a sign of great wealth but by the mid nineteenth century manufacturers emerged to cater for a growing middle class market. Glasshouses became increasingly sophisticated with different types tailored to house specific crops and manufacturers competing with one another by developing their own house styles leading to a wealth of designs endlessly fascinating to the garden or architectural historian. In *Glasshouses* Fiona Grant provides an illustrated introduction to the subject including the twentieth century decline and recent attempts at restoration.

## Territorial Ambitions and the Gardens of Versailles

Chandra Mukerji, 1997-09-25 In seventeenth century France land took on new importance for the practice of politics and rituals of court life. In her major new book Chandra Mukerji highlights the connections between the two seemingly disparate activities of engineering and garden design. She shows how at Versailles in particular the royal park showcased French skills in using nature and art to design a distinctively French landscape and create a naturalized political territoriality. She challenges the association of state power with social and legal structures alone and demonstrates the importance for Louis XIV and his state of a controlled physical site a demarcated French territory within the wider European geo political continent.

## Citrus

Pierre Laszlo, 2008-10 Walk into your local grocery store and down the produce aisle and you'll find a dazzling array of citrus from navel oranges and clementines to grapefruit and key limes and sometimes even more exotic fare like the Japanese yuzu or the baboon lemon. Nearly 100 million tons of citrus are produced globally every year but where did these fruits first come from? How did they find their way into the Western world? And how did they become both a culinary and cultural phenomenon? Pierre Laszlo here traces the spectacular rise and spread of citrus across the globe from Southeast Asia in 4000 BC through North Africa and the Roman Empire to early modern Spain and Portugal whose explorers introduced the fruits to the
