Saunders, Adrian Thornhill, Philip Lewis, Ian Brooks, Jamie Weatherston, Graham Wilkinson, Peter Atrill, Eddie McLaney, 2007-09-25. **Organisational Behaviour and Analysis: An Integrated Approach** 3 E. A comprehensive introduction to Organisational Behaviour and Analysis with a distinctive psychological outlook. Avoiding a managerialist approach, the book places emphasis on Organisational Behaviour. Organisational Analysis as neutral subjects concerned with understanding rather than controlling human behaviour in organisations. **Research Methods for Business Students** 4 E. In this book Saunders et al. address what are perhaps the two biggest problems in teaching Research Methods: getting students interested in methodology and theory and helping them to understand the practical relevance. **The International Business Environment** 1 E. The International Business Environment is a thoroughly revised and re-orientated edition of the successful text entitled *The Business Environment* by the same author team. Responding to demand for a more global perspective, the book offers broad and discursive coverage of the external international environment that organisations face. **Accounting and Finance for Non-Specialists** 5 E. Now in its fifth edition, this successful text introduces the basic principles and underlying concepts of accounting and finance. It adopts a practical, non-technical approach, making it the ideal text for students from non-accounting disciplines.

Internationalisation and Enterprise Development in Ghana John Kuada, 2000-05-09. Policy makers and scholars consider private enterprise development as one of the most promising avenues of economic growth in Africa. To grow enterprises must improve the efficiency and effectiveness of their operations, often through internationalisation. It is generally believed that internationalisation enhances the technological and managerial capacities of firms and also helps them to leverage other types of resources not immediately available within their own countries. In recent years there has been an upsurge of interest in exploring the extent to which African firms are integrated into global business networks and the benefits if any derived from such integrations. The above informed the need for an empirical investigation in Ghana from 2002-2003, the results of which are presented in this book. Based on the experiences in Ghana, contributors to the volume explore the issues of internationalisation in Africa by focusing on firm-level activities and inter-firm relations rather than on macro issues. They draw on dominant theories of internationalisation to explore issues such as sustained competitive advantages of firms, management and business relations in export processing zones, organisational structures, competence and leadership, culture, learning and cross-border inter-firm linkages, as well as finance and stock exchange performance in Ghana. **Internationalisation and Enterprise Development** is a major contribution to the body of knowledge on enterprise development in Africa in general and Ghana in particular. It is a must-read to all who are interested in Africa's enterprise development, including the role played by internationalisation in that process.
