

Optional Society

Folke Doving

Optional Society:

The Optional Society Folke Dovring, 2012-12-06 Long before today's electronic media made us aware of articulate world opinions across the globe there were other dramatic international communications. One current of opinion was expressed by the many generations of different nationalities who voted with their feet and settled down in North America. To them and to many others the hallmark of the United States since the beginning of the republic was the freedom of choice for common people. This image was inspiring enough to build up the free institutions which together with the country's open frontiers broke the hold of mass poverty. So options brought to the masses are America's trademark in human civilization. Nowadays when advanced industrialization and electronic media are penetrating the world and opening new frontiers everywhere the challenge from the optional society often called Americanization becomes a source of global competition, imitation or opposition and shapes the profile of our time. What is the character of this new optional society so early displayed in the United States but today emerging in many other countries and communicated wherever nations confront socio-economic problems of their own? Can analysis of its economics and communications reveal its international message? More than two decades of research in those fields and our experience as Americans by choice have made us try **Conviction in an Optional Society** Marina Ngursangzeli Behera, Jean-Daniel Plüss, 2021-08-10 Today more than ever we are challenged to think on a larger scale and act in common pursuit with regard to social challenges, our convictions and public engagement. What bearing do these contexts have on our communication and practical action? How can we live responsively and remain faithful to our fundamental beliefs? The papers presented here suggest constructive answers **The Optional Society** Folke Dovring, Karin Dovring, 2014-09-12 Long before today's electronic media made us aware of articulate world opinions across the globe there were other dramatic international communications. One current of opinion was expressed by the many generations of different nationalities who voted with their feet and settled down in North America. To them and to many others the hallmark of the United States since the beginning of the republic was the freedom of choice for common people. This image was inspiring enough to build up the free institutions which together with the country's open frontiers broke the hold of mass poverty. So options brought to the masses are America's trademark in human civilization. Nowadays when advanced industrialization and electronic media are penetrating the world and opening new frontiers everywhere the challenge from the optional society often called Americanization becomes a source of global competition, imitation or opposition and shapes the profile of our time. What is the character of this new optional society so early displayed in the United States but today emerging in many other countries and communicated wherever nations confront socio-economic problems of their own? Can analysis of its economics and communications reveal its international message?
