## **Orchestrating Symphony:**

**Orchestrating Symphony** Dan Shafer, Waite Group, 1985      **Orchestrating the Nation** Douglas W. Shadle, 2016

During the nineteenth century nearly one hundred symphonies were written by over fifty composers living in the United States. With few exceptions this repertoire is virtually forgotten today. In *Orchestrating the Nation: The Nineteenth Century American Symphonic Enterprise*, author Douglas W. Shadle explores the stunning stylistic diversity of this substantial repertoire and uncovers why it failed to enter the musical mainstream. Throughout the century, Americans longed for a distinct national musical identity. As the most prestigious of all instrumental genres, the symphony proved to be a potent vehicle in this project as composers found inspiration for their works in a dazzling array of subjects including Niagara Falls, Hiawatha, and Western pioneers. With a wealth of musical sources at his disposal, including never before examined manuscripts, Shadle reveals how each component of the symphonic enterprise, from its composition to its performance to its immediate and continued reception by listeners and critics, contributed to competing visions of American identity. Employing an innovative transnational historical framework, Shadle's narrative covers three continents and shows how the music of major European figures such as Beethoven, Schumann, Wagner, Liszt, Brahms, and Dvorak exerted significant influence over dialogues about the future of American musical culture. Shadle demonstrates that the perceived authority of these figures allowed snobby conductors, capricious critics, and even orchestral musicians themselves to thwart the efforts of American symphonists despite widespread public support of their music. Consequently, these works never entered the performing canons of American orchestras. An engagingly written account of a largely unknown repertoire, *Orchestrating the Nation* shows how artistic and ideological debates from the nineteenth century continue to shape the culture of American orchestral music today.

*Orchestrating Connection* Noah Askin, David Homan, 2025-08-05. We are more connected than ever yet paradoxically lonelier and more isolated. The need for meaningful connection has never been more profound. *Orchestrating Connection: How to Build Purposeful Community in a Tribal World* is a call to action for anyone concerned about this fragmentation, offering a compelling vision of how to weave genuine relationships that foster belonging, collaboration, and collective impact. The future belongs not to accidental collections of neighbors or aggrieved online groups but to communities built with intention, guiding principles, and a give and give attitude. *Orchestrating Connection* doesn't just provide a new way to think about our social world; it's a how-to blueprint for creating the DNA to build it. Weaving together the key principles of diversity, vulnerability, curiosity, generosity, and gratitude, the authors describe how consistent rituals, explicitly communicated values, and expectations, and a carefully crafted culture help solidify each community's collective identity. But the work of building your community, whether growing your own network or shaping a global movement, begins with personal clarity. You can't effectively participate in or lead a community without first understanding your own purpose. The journey thus begins at the individual level, identifying what you stand for, what you truly need, and how you can leverage that deep understanding to

draw others into conversation with you Ultimately this book is an invitation to redefine community Whether you re an activist aiming to mobilize a grassroots initiative an executive reshaping a company s culture or an individual seeking personal transformation this book provides a roadmap for forging intentional empathic communities Orchestrating Connection is therefore poised to spark a larger movement one that can inspire and empower us to replace isolation with purpose and genuine belonging In team sports you may excel as an individual but you only win as a tight knit group That group in essence is a community because what you bring to the game and how you act off the court all informs that subtle dynamic of what makes a group champions Orchestrating Connection systematically creates the rituals for self work to develop self worth and for how we master our network to create teams that champion us as we champion them Candace Parker former WNBA forward Sports Anchor and Author Wow I haven t been this inspired about the future of human connection since I read The Art of Gathering by Priya Parker The prose shifts easily between gripping stories and practical insights on human connection Required reading for anyone who loves bringing people together Andy Dunn best selling author of Burn Rate Launching a Startup and Losing My Mind and founding CEO of Pie and Bonobos My life has been about family bringing children joy and strengthening communities both as a business leader and philanthropist Our world needs a new perspectives on how to bring passionate driven leaders together and this book delivers them The work one must do personally and with whom one surrounds oneself is crucial to create ethical accountable standards for the evolution of our society Orchestrating Connection takes what we know and puts it together in a way that can bring about a systemic change in perspective Alan Hassenfeld former Chairmen CEO of Hasbro Leadership in philanthropy is fundamentally about gathering and empowering others to help This is what Orchestrating Connection is about the crucial insight that surrounding yourself with the right people starts with you and resonates outward based on integrity and your principles like the concentric rings around a pebble thrown into a pond David Homan s work on the board of the Arthur Miller Foundation AMF has given us invaluable insights into how giving can be contagious given the right strategies I endorse the benefits of this book s guidance because I have seen them in action Rebecca Miller Filmmaker Activist and Philanthropist
