Ordered To Care:

Ordered to Care Susan M. Reverby, 1987-08-28 An engaging study of the dilemmas faced by American nursing which examines the ideology practice and efforts at reform of both trained and untrained nurses in the years between 1850 and 1945 Ordered to Care provides an overall history of nursing s development and places that growth within the context of new questions raised by women s history and the social history of health care Building upon extensive use of primary and quantitative data the author creates a collective portrait of nursing from the work of the individual nurse to the political efforts of its organizations Dr Reverby contends that nursing s contemporary difficulties are caused by its historical obligation to care in a society that refuses to value caring She examines the historical consequences of this critical dilemma and concludes with a discussion of why nursing will have to move beyond its obligation to care and what the implications of this change would be for all of us *The History of Fairfield, Fairfield County, Connecticut, from the Settlement of the Town in 1639 to 1818: 1700-1800 [i. e. 1789]* Elizabeth Hubbell Godfrey Schenck, 1904
