

Orestes In Progress

Benjamin Nicholas Martin

Orestes In Progress:

Orestes in Progress Roberta Kalechofsky, 2009 Orestes Brownson Arthur Meier Schlesinger (Jr.), 1938 *Friends of the Unrighteous Mammon* Stewart Davenport, 2008-09-15 What did Protestants in America think about capitalism when capitalism was first something to be thought about The Bible told antebellum Christians that they could not serve both God and mammon but in the midst of the market revolution most of them simultaneously held on to their faith while working furiously to make a place for themselves in a changing economic landscape In *Friends of the Unrighteous Mammon* Stewart Davenport explores this paradoxical partnership of transcendent religious values and earthly pragmatic objectives ultimately concluding that religious and ethical commitments rather than political or social forces shaped responses to market capitalism in the northern states in the antebellum period Drawing on diverse primary sources Davenport identifies three distinct Christian responses to market capitalism assurance from clerical economists who believed in the righteousness of economic development opposition from contrarians who resisted the changes around them and adaptation by the pastoral moralists who modified their faith to meet the ethical challenges of the changing economy Delving into the minds of antebellum Christians as they considered themselves their God and their developing American economy *Friends of the Unrighteous Mammon* is an ambitious intellectual history of an important development in American religious and economic life

American Unitarianism and the Protestant Dilemma Lydia Willsky-Ciollo, 2015-11-11 American Unitarians were not onlookers to the drama of Protestantism in the nineteenth century but active participants in its central conundrum biblical authority Unitarians sought what other Protestants sought which was to establish the Bible as the primary authority only to find that the task was not so simple as they had hoped This book revisits the story of nineteenth century American Unitarianism proposing that Unitarianism was founded and shaped by the twin hopes of maintaining biblical authority and committing to total free inquiry This story fits into the larger narrative of Protestantism which this book argues has been defined by a deep devotion to the singular authority of the Bible sola scriptura and conversely a troubling ambivalence as to how such authority should function How in other words can a book serve as a source of authority This work traces the greater narrative of biblical authority in Protestantism through the story of four main Unitarian figures William Ellery Channing Andrews Norton Theodore Parker and Frederic Henry Hedge All four individuals played a central role at different times in shaping Unitarianism and in determining how exactly religious authority functioned in their nascent denomination Besides these central figures the book goes both backward examining the evolution of biblical authority from the late medieval period in Europe to the early nineteenth century in America and forward exploring the period of Unitarian experimentation of religious authority in the late nineteenth century The book also brings the book firmly into the present exploring how questions about the Bible and religious authority are being answered today by contemporary Unitarian Universalists Overall this book aims to bring the American Unitarians firmly back into the historical and historiographical

conversation not as outliers but as religious people deeply committed to solving the Protestant dilemma of religious authority

Understanding Japaneseness Kosuke Nishitani, 2016-09-26 Japan although a small country is identified as perhaps the only civilization composed of just one nation In spite of its many encounters with axial civilizations Japan has somehow preserved a unique sense of self This enduring quality lends an air of mystery to Japanese culture that continues to draw the fascination of many Such curiosity about the nature of Japan and its people has prompted the publication of many books that contribute to the academic genre known as Nipponjinron This book makes a distinctly new contribution as a theological anthropology of Japaneseness by paying careful attention to the religious sensibilities that undergird Japanese behavior The author draws on numerous seminal works of Nipponjinron to build a sturdy philosophical and historical platform Through concrete examples classic literature historical analysis and religious reflection the author carefully and skillfully illuminates a new path to understanding Japaneseness by drawing the reader's attention to the lifeblood of Japanese behavior maternal filial affection

Welfare for Markets Anton Jäger, Daniel Zamora Vargas, 2023-04-18 A sweeping intellectual history of the welfare state's policy in waiting The idea of a government paying its citizens to keep them out of poverty now known as basic income is hardly new Often dated as far back as ancient Rome basic income's modern conception truly emerged in the late nineteenth century Yet as one of today's most controversial proposals it draws supporters from across the political spectrum In this eye opening work Anton Jäger and Daniel Zamora Vargas trace basic income from its rise in American and British policy debates following periods of economic tumult to its modern relationship with technopopulist figures in Silicon Valley They chronicle how the idea first arose in the United States and Europe as a market friendly alternative to the postwar welfare state and how interest in the policy has grown in the wake of the 2008 credit crisis and COVID 19 crash An incisive comprehensive history Welfare for Markets tells the story of how a fringe idea conceived in economics seminars went global revealing the most significant shift in political culture since the end of the Cold War

The Plays of Sophokles Valdis
