### **Improvised Medicine:**

**Providing Care in Extreme Environments, 2nd edition** Kenneth V. Iserson, 2016-01-07 Deliver quality healthcare in the most challenging field conditions Comprehensive yet compact practical and enduring Improvised Medicine Providing Care in Extreme Environments Second Edition is the one book to toss into your bag when going to practice medicine in global disaster or other resource poor settings including theaters of war regions of civil unrest and economically deprived areas Full of practical clinical pearls and field tested strategies this indispensable guide provides detailed instructions on how to work successfully outside of your comfort zone It demonstrates how to devise effective treatment solutions when the traditional tools medications equipment and staff are unavailable or when providing care outside your primary area of expertise In any crisis from power failures and computer crashes to floods tsunamis and earthquakes knowing how to deal with the unique challenges encountered saves lives and communities This reference gives you that knowledge and inspires innovative crisis resolution

FROM REVIEWS OF THE FIRST EDITION Dr Iserson has given us a most remarkable book Many readers may be familiar with David Werner's lay healthworker book Where There Is No Doctor this new volume could be titled Where There Is a Doctor But No Stuff Drawing from his experience providing care in international wilderness and disaster settings he has compiled an impressive collection of bare bones equipment and work around strategies to provide the best possible care in resource poor settings While presenting many creative examples the purpose of the book is not to offer an exhaustive list of solutions to missing resource challenges but to inspire creativity in readers who may find themselves needing to improvise

Family Medicine There is a lot of material here and if nothing else it may motivate more people to practice low tech medicine and be willing to go where health care is dependent more on caring than on cost I recommend this book to anyone who must practice in austere environments and it will be in my rucksack when I respond to the next disaster
