2000 Years and Beyond David Archard,Trevor A. Hart,Nigel Rapport,Paul Gifford,2003-09-02 2000 Years and Beyond brings together some of the most eminent thinkers of our time specialists in philosophy theology anthropology and cultural theory. In a horizon scanning work they look backwards and forwards to explore what links us to the matrix of the Judaeo Christian tradition from which Western cultural identity has evolved. Their plural reflections raise searching questions about how we move from past to future and about who we are. What do the catastrophes of the twentieth century signify for hopes of progress? Can post Enlightenment humanism and its notion of human nature survive without faith? If the numinous magic global capitalism is our own giant shadow cast abroad does that shadow offer hope enough of a communal future? Has the modern secularized West now outgrown its originating faith matrix? Often controversial and sometimes visionary these seven new essays ask how do we tell and rewrite the story of the Common Era. Introduced by Paul Gifford and discussed in a lively dialogic conclusion they add their distinctive voices to a debate of profound and urgent topicality.

Technological Economy Don Slater,Andrew Barry,2005-07-15 In this major new collection leading experts explore the multidisciplinary connections between technology and economy drawing on new convergences between economic sociology and science and technology studies. Through theoretical and empirical studies the authors investigate economics and economic knowledges as technologies the economies as socio technical arrangements the nature of innovation the role of technological mediations in representing and performing economies. This revealing book ideal for those with an interest in contemporary social theory interrogates the evidence for the contemporary claims about the emergence of the new economy and knowledge based economies and sheds new light on the relationship between economy and culture.
