Filene,2008 This book provides helpful guidance for new instructors developing and teaching their first college courses In the book the author proposes that teaching should not be like a baseball game in which the instructor pitches ideas to students to see whether they hit or strike out Ideally he says teaching should resemble a game of Frisbee in which the teacher invites students to catch ideas and pass them on Rather than prescribe a single model for success he examines the advantages and disadvantages of various pedagogical strategies inviting new teachers to make choices based on their own personalities values and goals In the book he also tackles everything from syllabus writing and lecture planning to class discussions grading and teacher student interactions outside the classroom The book is for new teachers in all fields Instructors in the humanities the social sciences and the natural sciences will all welcome its invaluable tips for successful teaching and learning Back cover      **Teach Writing with Growth Mindset** Sara Joy Hoeve,2022-03-08 Created for busy classroom teachers this resource provides classroom strategies and writing activities you can immediately adapt and integrate into any classroom routine Following a foreword by bestselling author of The Growth Mindset Coach Annie Brock each chapter provides new tips and tricks to transform the culture of a writing classroom and convince students to finally let go of the bad writer label This resource provides teachers with both the research based pedagogy and the specific growth mindset strategies to foster positive writing identities in students of all ages      Visions and Revisions James Dale Williams,2002 Williams Soka U California has compiled nine essays that examine rhetoric and composition from the 1960s to the present its emergence as a field the influence of linguistics and psychology in shaping an empirical agenda the waning of that influence as the field aligned itself more closely with the goals and objectives of traditional English departments the shift toward postmodern perspectives on language place and self and a move toward post postmodern concerns This historical study begins with reminiscences by Richard Lloyd Jones W Ross Winterowd Frank J D Angelo and John Warnock The second section examines those changes in detail For example Williams makes the connection between rhetoric and democracy especially the influence of liberal democracy on rhetoric in society He argues that because our liberal democracy is so focused on entertainment rhetoric and composition must examine its role in relation to it Annotation copyrighted by Book
