## **New Testament And Criticism:**

**The New Testament and Criticism** George Eldon Ladd, 1967 One unfortunate consequence of the bitter fundamentalist modernist controversy which raged in the early twenties has been the strongly negative attitude toward Biblical criticism assumed by some of the successors to the fundamentalists of the 1920s Such people according to the author insist that the critical method is basically hostile to the evangelical faith and they have continued to oppose any use of it Others however claiming the same heritage believe that the orthodox interpretation of the Gospel can be defended positively and constructively only with the aid of a sound critical method and the results of critical scholarship The author believes that an evangelical Biblical criticism is not only possible but necessary The central thesis of his book is that the Bible is the Word of God given in the words of men in history and as such its historical origins must be reconstructed as far as possible In this way a richer understanding of the Scriptures can be achieved Some Thoughts on the Textual Criticism of the New Testament George Salmon, 1897 **New Testament Textual Criticism** David Alan Black, 1994-04 A concise companion to Ellis Brotzman's Old Testament Textual Criticism Introduces students to the process of comparing Greek texts and seeking the original wording Changing the Goalpost of New Testament Textual Criticism Abidan Paul Shah, 2020-10-02 Before the 1960s the goal of New Testament Textual Criticism was singular to retrieve the original text of the New Testament Since then the goalpost has incrementally shifted away from the original text to retrieving any text or many texts of the NT Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with any confidence or accuracy Other scholars have gone a step further to claim that the idea of an original text itself is a misconception that needs to be abandoned If this new approach in NTTC is correct then the authority of Scripture is weakened or no longer valid It will be shown in this book that such is not the case Furthermore emphasis will be placed on the need to return to the traditional goalpost of NTTC i e to retrieve the original text Without a generally definitive text the door will be left wide open to recreate any desired text of the NT An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text Consequently it will lead to an unsettled Christian faith and practice *The New Literary Criticism and the New Testament* Elizabeth Struthers Malbon, Edgar V. McKnight, 1994-10-01 This publication presents the rich variety of critical methodologies in contemporary literary study of the New Testament The tradition of study represented in the essays lies at the conjunction of developments in biblical studies and literary criticism 1 the exhaustion of New Testament historical criticism in general and redaction criticism in particular 2 the waning of Formalist New Critical approaches in literary study and 3 the emphasis upon the text in terms of language and discourse as the free play of signifiers The essays deal with theory exegesis and their interdependence in this new literary context However contributions of earlier epochs in the history of literary criticism and New Testament study are integrated into current approaches For example the issue of reference originating in the mimetic theories of classical antiquity is raised implicitly and explicitly

Implications of literary study for theology are suggested The relationship between redaction critical and literary approaches is examined Theoretical and exegetical essays growing out of feminist literary study are offered Orality allegory deconstruction ideology sociological criticism rhetorical criticism narrative criticism as well as other themes and methods are discussed in the essays treatment of writings of the New Testament A rich variety of critical methodologies in contemporary literary study of the New Testament

**Text and Interpretation** Hartin, Petzer, 2019-07-01 Text and Interpretation gives an insight into the many different approaches that more recent South African scholarship has adopted in the interpretation of the New Testament While the number of approaches in New Testament interpretation has proliferated over the past few years all the proposals still fall under one of the three traditional poles sender author text receptor reader Classified according to this division each chapter has a twofold aim Firstly the perspective is situated within a wider framework of interpretation to illustrate the context out of which this approach emerges Secondly each article has selected a particular New Testament text to demonstrate this approach in practice The authors of these chapters the majority of which are South African scholars were chosen because of their expertise in their specific fields By presenting these studies together in one collection the scholarship in these different areas will become more readily accessible to a wider group of scholars

Narrative Criticism of the New Testament James L. Resseguie, 2022-10-25 Narrative criticism is a relatively recent development that applies literary methods to the study of Scripture James Resseguie suggests that this approach to reading the Bible treats the text as a self contained unit and avoids complications raised by other critical methods of interpretation Resseguie begins with an introductory chapter that surveys the methods of narrative criticism and how they can be used to

discover important nuances of meaning through what he describes as a close reading of the text He then devotes chapters to the principal rhetorical devices setting point of view character rhetoric plot and reader Readers will find here an accessible introduction to the subject of narrative criticism and a richly rewarding approach to reading the Bible New Testament Textual Criticism: The Application of Thoroughgoing Principles James Keith Elliott, 2010-12-17 J K Elliott has been identified as one of the Main exponents of so called thoroughgoing textual criticism In this collection of fifty seven of his essays from the past forty years are articles on methodology as well as on praxis with a selection of important textual variants including some of especial interest for exegesis Also included are several essays on textual criticism which emphasise its relevance for the discussion of the synoptic problem and there are also a number of assessments of printed editions of the Greek New Testament A bibliography of Elliott s writings is appended Those interested in the New Testament text and in Greek manuscripts as well as scholars working on the history of exegesis or the Greek language which thoroughgoing criticism encourages will find this collection of value The selection will enable readers to have an overview of Elliott s contribution to the discipline **New Testament Interpretation Through Rhetorical Criticism** George A. Kennedy, 2014-02-01 New Testament Interpretation through Rhetorical Criticism provides readers of the Bible with an important tool for understanding the Scriptures Based on the theory and practice of Greek rhetoric in the New Testament George Kennedy s approach acknowledges that New Testament writers wrote to persuade an audience of the truth of their messages These writers employed rhetorical conventions that were widely known and imitated in the society of the times Sometimes confirming but often challenging common interpretations of texts this is the first systematic study of the rhetorical composition of the New Testament As a complement to form criticism historical criticism and other methods of biblical analysis rhetorical criticism focuses on the text as we have it and seeks to discover the basis of its powerful appeal and the intent of its authors Kennedy shows that biblical writers employed both external modes of persuasion such as scriptural authority the evidence of miracles and the testimony of witnesses and internal methods such as ethos authority and character of the speaker pathos emotional appeal to the audience and logos deductive and inductive argument in the text In the opening chapter Kennedy presents a survey of how rhetoric was taught in the New Testament period and outlines a rigorous method of rhetorical criticism that involves a series of steps He provides in succeeding chapters examples of rhetorical analysis looking closely at the Sermon on the Mount the Sermon on the Plain Jesus farewell to the disciples in John s Gospel the distinctive rhetoric of Jesus the speeches in Acts and the approach of Saint Paul in Second Corinthians Thessalonians Galatians and Romans
