New Medievalism:

The New Medievalism Marina S. Brownlee, Kevin Brownlee, Stephen G. Nichols, 1991-10 This is a substantial and readable volume and it is supplied with a rich array of documentation in the notes and bibliography It deals with a question of critical importance for current research on medieval literature namely the relationship between this literature and us This is an important collection and one may congratulate the editors of their ambitious undertaking Paul Zumthor *Speculum*

Rethinking the New Medievalism R. Howard Bloch, Alison Calhoun, Jacqueline Cerquiglini-Toulet, Joachim Küpper, Jeanette Patterson, 2014-04-30 Twenty years after Stephen Nichols transformed the study of medieval literature leaders in the field pay tribute to his work and expand on it In the early 1990s Stephen Nichols introduced the term new medievalism to describe an alternative to the traditional philological approach to the study of the romantic texts in the medieval period While the old approach focused on formal aspects of language this new approach was historicist and moved beyond a narrow focus on language to examine the broader social and cultural contexts in which literary works were composed and disseminated Within the field this transformation of medieval studies was as important as the genetic revolution to the study of biology and has had an enormous influence on the study of medieval literature *Rethinking the New Medievalism* offers both a historical account of the movement and its achievements while indicating in Nichols s innovative spirit still newer directions for medieval studies The essays deal with questions of authorship theology and material philology and are written by members of a wide philological and critical circle that Nichols nourished for forty years Daniel Heller Roazen s essay for example demonstrates the conjunction of the old philology and the new In a close examination of the history of the words used for maritime raiders from Ancient Greece to the present pirate plunderer bandit Roazen draws a fine line between lawlessness and lawfulness between judicial action and war between war and public policy Other contributors include Jack Abecassis Marina Brownlee Jacqueline Cerquiglini Toulet Andreas Kablitz and Ursula Peters *Rethinking the New Medievalism* R. Howard Bloch, Alison Calhoun, Jacqueline Cerquiglini-Toulet, Joachim Küpper, Jeanette Patterson, 2014-04-30 In the early 1990s Stephen Nichols introduced the term new medievalism to describe an alternative to the traditional philological approach to the study of the romantic texts in the medieval period While the old approach focused on formal aspects of language this new approach was historicist and moved beyond a narrow focus on language to examine the broader social and cultural contexts in which literary works were composed and disseminated Within the field this transformation of medieval studies was as important as the genetic revolution to the study of biology and has had an enormous influence on the study of medieval literature *Rethinking the New Medievalism* offers both a historical account of the movement and its achievements while indicating in Nichols s innovative spirit still newer directions for medieval studies The essays deal with questions of authorship theology and material philology and are written by members of a wide philological and critical circle that Nichols nourished for forty years Publisher s Web site **Medievalism and the Academy II** David Metzger, 2000 The second part

of Medievalism and the Academy identifies the four specific questions that have come to focus recent scholarship in medievalism What is difference what is theory woman God The impact of cultural studies on contemporary medieval studies is investigated in this latest volume of Studies in Medievalism which also offers an account of the developing interest of contemporary cultural theorists in the medieval period Rather than dismissing the connection between medieval studies and cultural criticism as an expression of academic self interest the essays identify specific questions which engage both such as race history women religion and literature Topics include the use of Augustine by postcolonial theorists the influence of studies in medieval mysticism on the development of women's studies programs and the influence of Foucault and New Historicism on the study of medieval history Contributors ELLIE RAGLAND TIMOTHY RICHARDSON MICHAEL BERNARD DONALD CLAY KINSNER LINDA SEXSON REBECCA DOUGLASS LOUISE SYLVESTER RICHARD GLEJZER CHARLES WILSON ANDREW J DELL OLIO *Medieval Music-Making and the Roman de Fauvel* Emma Dillon, 2002-10-07

Publisher Description **The Palgrave Handbook of Global Politics in the 22nd Century** Laura Horn, Ayşem Mert, Franziska Müller, 2023-01-01 This handbook offers a unique approach to the question How do scholars write the future of global politics Written in futuristic style around the 200 year anniversary of the birth of International Relations IR as an academic discipline the contributions engage in world building and imagine different futures of IR Set in a multiverse 23 chapters draw on a range of possible themes and imaginaries for instance post pandemic conditions the Anthropocene and not least academic practices and the role of researchers A concluding chapter anchors these explorations in contemporary discussions The book mirrors the format and style of existing handbooks combining outlines and discussions of theories structures processes and core issues in IR with an academic science fiction account of how these might play out over the course of the next century In doing so the book challenges IR and provides alternative imaginaries rather than predicting future conditions for all humanity The book invites readers to reflect on how thinking about the future has become an increasingly radical but more than ever necessary act **Heterarchy in World Politics** Philip G. Cerny, 2022-12-30

Heterarchy in World Politics challenges the fundamental framing of international relations and world politics IR theory has always been dominated by the presumption that world politics is at its core a system of states However this has always been problematic challengeable time bound and increasingly anachronistic In the 21st century world politics is becoming increasingly multi nodal and characterized by heterarchy the coexistence and conflict between differently structured micro and meso quasi hierarchies that compete and overlap not only across borders but also across economic financial sectors and social groupings Thinking about international order in terms of heterarchy is a paradigm shift away from the mainstream competing paradigms of realism liberalism and constructivism This book explores how since the mid 20th century the dialectic of globalization and fragmentation has caught states and the interstate system in the complex evolutionary process toward heterarchy These heterarchical institutions and processes are characterized by increasing autonomy and special

interest capture The process of heterarchy empowers strategically situated agents especially agents with substantial autonomous resources and in particular economic resources in multi nodal competing institutions with overlapping jurisdictions The result is the decreasing capacity of macro states to control both domestic and transnational political economic processes In this book the authors demonstrate that this is not a simple breakdown of states and the states system it is in fact the early stages of a structural evolution of world politics This book will interest students scholars and researchers of international relations theory It will also have significant appeal in the fields of world politics security studies war studies peace studies global governance studies political science political economy political power studies and the social sciences more generally The Encyclopædia Britannica Hugh Chisholm, James Louis Garvin, 1926 Supranational Union and New Medievalism Lance Kennedy, 2017-03-03 In this detailed study Lance Kennedy delves into the prospect of New Medievalism and its potential for adjusting power relationships between regions nations and the EU and whether this might allow for the rebirth of pre Westphalian systems of European organization As a case study Kennedy explores the history of Scottish politics Scotland's complex relationship with the United Kingdom and the EU and the rise of the Scottish National Party in order to determine the extent to which the New Medieval paradigm might express the future of supranational politics in Europe *The Place of God in Piers Plowman and Medieval Art* Mary Clemente Davlin, 2001 Very few poets except the authors of the Hebrew Scriptures and the New Testament have tried to write in any extended way about God Even Dante confines his vision of Christ and the Trinity to a few passages at the end of Paradiso and most religious lyric poets concentrate more on their own attitudes and reactions to God their prayer longing repentance suffering or joy than on the nature of God Among English poems three narratives Piers Plowman Paradise Lost and Paradise Regained are exceptional in their extensive explicit poetry about god and their direct concern with the mysteries of Biblical faith This work looks at Piers Plowman confronting not only the alterity of culture resulting from a lapse of almost 700 years but also the more profound alterity of the subject matter **International Law and Global Governance** Michelle Sanson, 2008 New Mediæval and Modern History Samuel Bannister Harding, 1913 **Symbolism in Medieval Thought and Its Consummation in the Divine Comedy** Helen Flanders Dunbar, 1929 *The Journal of English and Germanic Philology*, 1919 **From Medievalism to Proto-modernity in the Sixteenth and Seventeenth Centuries** Phillip Sigal, 1986 Ancient and medieval, 1912 The Encyclopaedia Britannica, 1910 *Lectures on Medieval Church History* Richard Chenevix Trench, 1878 Studies in Medieval and Renaissance Teaching, 1984 Classified Catalogue of the Carnegie Library of Pittsburgh. 1907-1911 Carnegie Library of Pittsburgh, 1914
