Based on an intriguing alternative history hypothesis this novel imagines a world where the Moors never left Southern Spain after their 800 year reign but instead expanded their empire across Europe This fascinating premise is explored through the chaotic lens of a bumbling film crew in the Sahara desert The director lost in a haze of Moroccan kif has embraced the local culture a little too enthusiastically With the scriptwriters gone and the leading actor in a perpetual sulk inside his Airstream the production is at a standstill Enter Tintorio Indigolin a bitcoin billionaire on the run from a Shakespeare quoting Irish assassin In a bid to leverage a tax loss Indigolin acquires the film rights injecting a new lease of life into the project Mysteriously a captivating screenplay begins to appear on set page by page night after night Penned by an enigmatic writer the script proposes a world where the Moors didn't just resist expulsion in 1492 but went on to dominate Spain France and Italy creating an Islamic State of Europe As the screenplay unfolds it transforms the lives of everyone involved in the film The narrative weaves through a labyrinth of twists assassinations and narrow escapes employing the most unexpected methods only to culminate in the most uplifting conclusion you'll encounter this year      **Marx and We** Sun Zhengyu, 2024-08-01

Marxist ideology is the only fully scientific ideology the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism Without Marxism modern people cannot establish true social ideals nor can they engage in the rational pursuit of values Without Marxism modern people cannot choose the correct path of development nor can they build up new forms of

civilizations Without Marxism modern people would never base their commitments to schedule the consensus building effort and support the consensus building process on any irrefutably and sufficiently sound theoretical foundations **The New Prometheans** John S. The New Prometheans Courtenay Raia,2019-12-04 The Society for Psychical Research was established in 1882 to further the scientific study of consciousness but it arose in the surf of a larger cultural need Victorians were on the hunt for self understanding Mesmerists spiritualists and other romantic seekers roamed sunken landscapes of entrancement and when psychology was finally ready to confront these altered states psychical research was adopted as an experimental vanguard Far from a rejected science it was a necessary heterodoxy probing mysteries as diverse as telepathy hypnosis and even s ance phenomena Its investigators sought facts far afield of physical laws evidence of a transcendent irreducible mind The New Prometheans traces the evolution of psychical research through the intertwining biographies of four men chemist Sir William Crookes depth psychologist Frederic Myers ether physicist Sir Oliver Lodge and anthropologist Andrew Lang All past presidents of the society these men brought psychical research beyond academic circles and into the public square making it part of a shared far reaching examination of science and society By layering their papers textbooks and lectures with more intimate texts like diaries letters and literary compositions Courtenay Raia returns us to a critical juncture in the history of secularization the last great gesture of reconciliation between science and sacred truths Prometheus Reborn Michael L.
