New Right V The Constitution

James A. Dorn, Henry G. Manne

New Right V The Constitution:

The New Right v. The Constitution Stephen Macedo, 1997-08-01 Perhaps the most enduring legacy of the Reagan administration will be the conservative judges it has placed on the Supreme Court and other federal courts. In this provocative essay Harvard political scientist Stephen Macedo warns that the New Right's Jurisprudence of Original Intent seems to put untrammelled majoritarianism in place of constitutionally guaranteed liberties. Macedo accuses the New Right of moral skepticism in the service of majoritarianism and proposed instead a principled judicial activism that interprets the Constitution as a charter of liberties protecting individual freedom against a whole range of legislative and executive assaults. Macedo's defense of constitutional liberties sharply challenges constitutional theorists of both left and right.

Economic Liberties and the Judiciary

James A. Dorn, Henry G. Manne, 1988-09-12 Essays in this volume refocus attention on Constitutional protection for economic liberties. Divided into three parts the book deals with the following topics: Interpreting the Constitution, Theory and Practice, Property Rights Activism and the Judicial Process, and Recent Economic Issues in the Courts.

In addition, it also covers concerns such as privacy, the rights of the accused and national security. Alphabetically organized for ease of access, the articles range in length from 250 words for a brief biography to 5,000 words for in-depth analyses. Entries are organized around the following themes: organizations and government bodies, legislation and legislative action, statutes and acts, historical overviews, biographies, cases, themes, issues, concepts and events. The Encyclopedia of American Civil Liberties is an essential reference for students and researchers as well as for the general reader to help better understand the world we live in today.
