Federal Register ,2012-12 **The Fundamentals of Campaign Finance**

in the U.S. Diana Dwyre,Robin Kolodny,2024-07-23 Before the U S campaign finance system can be fixed we first have to understand why it has developed into the system as it exists today The nature of democracy itself the American capitalist economic system the content of the U S Constitution and how it is interpreted the structure of our governmental institutions the competition for governmental power and the behavior of campaign finance actors have all played a role in shaping the system The Fundamentals of Campaign Finance in the U S takes care to situate the campaign finance system in the context of the broader U S political and economic system Dwyre and Kolodny offer readers a brief tour through the development of the campaign finance regulatory structure highlighting the Supreme Court s commitment to free speech over political equality from Buckley v Valeo 1976 through the passage of the Bipartisan Campaign Reform Act BCRA 2002 They also examine the driving force behind campaign finance reform corruption through historical transactional and institutional perspectives While diving into the insufficiency of the disclosure and enforcement of campaign finance laws and calling

attention to multiple federal agencies including the Securities and Exchange Commission the Federal Communications Commission the Internal Revenue Service and principally the Federal Election Commission the authors show how a narrow view on campaign finance makes change difficult and why reforms often have limited success By examining the fundamentals Dwyre and Kolodny show the difficulties of changing a political system whose candidates have always relied on private funding of campaigns to one that guarantees free speech rights while minimizing concerns of corruption
