**Self Mastery Through Conscious Autosuggestion** Emile Coue,2014-04-28 Self Mastery Through Conscious Autosuggestion The Conscious Self and the Unconscious Self by Emile Coue Autosuggestion is a psychological technique that was developed by apothecary Emile Coue at the beginning of the 20th century The Coue method centers on a routine repetition of this particular expression according to a specified ritual in a given physical state and in the absence of any sort of allied mental imagery at the beginning and at the end of each day Unlike a commonly held belief that a strong conscious constitutes the best path to success Coue maintained that curing some of our troubles requires a change in our subconscious unconscious thought which can only be achieved by using our imagination Although stressing that he was not primarily a healer but one who taught others to heal themselves Coue claimed to have effected organic changes through autosuggestion Underlying principles Coue thus developed a method which relied on the belief that any idea exclusively occupying the mind turns into reality although only to the extent that the idea is within the realm of possibility For instance a person without hands will not be able to make them grow back However if a person firmly believes that his or her asthma is disappearing then this may actually happen as far as the body is actually able to physically overcome or control the illness On the other hand thinking negatively about the illness ex I am not feeling well will encourage both mind and body to accept this thought

Autosuggestion by the Method of Emile Coué by C. Harry Brooks From the Foreword The method of M. Coué is in no sense opposed to the ordinary practice of medicine. It is not intended to supplant it but to supplement it. It is a new ally bringing valuable reinforcements to the common crusade against disease and unhappiness. Induced Autosuggestion does not involve as several hasty critics have assumed an attack upon the Will. It simply teaches that during the actual formulation of suggestions that is for a few minutes daily the Will should be quiescent. At other times the exercise of the Will is encouraged indeed we are shown how to use it properly that is without friction or waste of energy.

### **Self Mastery Through**

**Conscious Autosuggestion and Autosuggestion : My Method (2 Books)** Emile Coué, 2016-07-02 Self Mastery Through Conscious Autosuggestion it is old because it dates from the appearance of man on the earth. In fact autosuggestion is an instrument that we possess at birth and in this instrument or rather in this force resides a marvelous and incalculable power which according to circumstances produces the best or the worst results. Knowledge of this force is useful to each one of us but it is peculiarly indispensable to doctors magistrates lawyers and to those engaged in the work of education. By knowing how to practice it consciously it is possible in the first place to avoid provoking in others bad autosuggestions which may have disastrous consequences and secondly consciously to provoke good ones instead thus bringing physical health to the sick and moral health to the neurotic and the erring the unconscious victims of anterior autosuggestions and to guide into the right path those who had a tendency to take the wrong one. We possess within us a force of incalculable power which when we handle it unconsciously is often prejudicial to us. If on the contrary we direct it in a conscious and wise manner it gives us the mastery of ourselves and allows us not only to escape and to aid others to escape from physical and mental ills but also to live in relative happiness whatever the conditions in which we may find ourselves. Lastly and above all it should be applied to the moral regeneration of those who have wandered from the right path. Book Two Autosuggestion My Method Auto suggestion is disconcerting in its simplicity. To the uninitiated auto suggestion or self mastery is likely to appear disconcerting in its simplicity. But does not every discovery every invention seem simple and ordinary once it has become vulgarized and the details or mechanism of it known to the man in the street. Not that I am claiming autosuggestion as my discovery. Far from it auto suggestion is as old as the hills only we had forgotten to practice it and so we needed to learn it all over again. Think of all the forces of the Universe ready to serve us. Yet centuries elapsed before man penetrated their secret and discovered the means of utilizing them. It is the same in the domain of thought and mind we have at our service forces of transcendent value of which we are either completely ignorant or else only vaguely conscious.
