## Mini Fred:

**Dead Fred, Flying Lunchboxes and the Good Luck Circle** Frank McKinney, 2010-01-01 Bestselling author Frank McKinney boldly enters young reader fiction in this deeply imaginative fantasy sure to race and gladden the hearts of all readers. The story was inspired by the more than one thousand walks to school the author has shared with his daughter and her friends in real life. Come along with them into the imaginative world of Dead Fred Flying Lunchboxes and the Good Luck Circle. Thirteen year old Ppeekk pronounced Peekie finds a very small very flat very dead fish. When he comes to life in her hand he has an amazing story to tell. In the brilliant underwater world called High Voltage manatees talk starfish sing and practical joking clownfish encourage children to launch their lunchboxes off the bridge. Now the fiendish Megalodon a fifty foot prehistoric shark has laid siege to High Voltage and dethroned King Frederick the Ninth whom Ppeekk calls Dead Fred. The monster reigns amphibiously under the old drawbridge with his army of crabs and blood red remora fish whose suckers drain victims joy and imagination. Ppeekk hides Dead Fred in the only safe place she can think of the usher's coat room at church. As she grows to know Fred she learns to trust and love him. Unlike her parents he listens to her and counsels her. Dead Fred trusts Ppeekk too. In fact he has a big favor to ask. Can she help him save High Voltage from the evil Megalodon. Ppeekk and her friends use everything they've got to lure the evil beast to his demise exploding coconut bombs strangler fig lassos even themselves as human bait to vanquish Megalodon and his rogue army. In the climactic scene they fight the battle of their lives in a Category 5 hurricane. Will they be able to save Dead Fred and High Voltage? Read Dead Fred Flying Lunchboxes and the Good Luck Circle to find out.

The Database and Expert Systems Applications DEXA conferences are dedicated to providing an international forum for the presentation of applications in the database and expert systems field for the exchange of ideas and experiences and for defining requirements for the future systems in these fields. After the very promising DEXA 90 in Vienna Austria we hope to have successfully established with this year's DEXA 91 a stage where scientists from diverse fields interested in application oriented research can present and discuss their work. This year there was a total of more than 250 submitted papers from 28 different countries in all continents. Only 98 of the papers could be accepted. The collection of papers in these proceedings offers a cross section of the issues facing the area of databases and expert systems i.e. topics of basic research interest on one hand and questions occurring when developing applications on the other. Major credit for the success of the conference goes to all of our colleagues who submitted papers for consideration and to those who have organized and chaired the panel sessions. Many persons contributed numerous hours to organize this conference. The names

of most of them will appear on the following pages In particular we wish to thank the Organization Committee Chairmen Johann Gordesch A Min Tjoa and Roland Wagner who also helped establishing the program Special thanks also go to Gabriella Wagner and Anke Ruckert Dimitris Karagiannis General Conference Chairman Contents Conference Committee
