John McAndrew's Modernist Vision tells the compelling story of the architect scholar and curator John McAndrew who played a key role in redefining modernism in the United States from the 1930s onward. The designer of the Vassar College Art Library arguably the first modern interior on a college campus and the curator of architecture at the Museum of Modern Art in New York from 1937 to 1941. McAndrew was instrumental in creating a distinct and innovative aesthetic that bridged the European modernist lineage and American regional vernacular. Providing a fascinating glimpse into McAndrew's life his associations with important architects and artists and the historical context that shaped his work this book is a thoroughly researched testament to a man who left a powerful mark on the evolution of American architecture **Catalogus Librorum Impressorum Bibliothecae Bodleianae in Academia Oxoniensi B.
