On Blue Note:

Blue Note Graham Marsh, Glyn Callingham, Felix Cromey, 1991 Music lovers have been attracted to the distinct style and sleek sound of jazz since its birth at the turn of the century. The album covers collected in this comprehensive volume under the well known Blue Note record label embody classic design and pioneering typography. Two hundred color photographs of the album sleeves, an informative history of the Blue Note record company and a portrait of Reid Miles who designed nearly 500 album covers capture the integrity of this distinctive record label. Sophisticated jazz connoisseurs and young listeners alike as well as those with an interest in style and graphic design will enjoy this exciting book of jazz memorabilia. Pepper Adams' Joy Road Gary Carner, 2012-08-02 Pepper Adams Joy Road not only compiles the sessions and gigs of the greatest baritone saxophone soloist in history but it is a fascinating overview of Adams' life and times through colorful interviews with Adams and other musicians. These candid observations open a window onto the behind the scenes drama that surrounded legendary recordings by John Coltrane, Charles Mingus, Thelonious Monk, Dizzy Gillespie, Duke Pearson, Thad Jones, David Amram, Elvin Jones and many others. **The John Coltrane Reference** Lewis Porter, Chris DeVito, David Wild, Yasuhiro Fujioka, Wolf Schmalzer, 2013-04-26 The BBC's Jazz Book of the Year for 2008. Few jazz musicians have had the lasting influence or attracted as much scholarly study as John Coltrane. Yet despite dozens of books, hundreds of articles and his own recorded legacy, the facts about Coltrane's life and work have never been definitely established. Well known Coltrane biographer and jazz educator Lewis Porter has assembled an international team of scholars to write The John Coltrane Reference, an indispensable guide to the life and music of John Coltrane. The John Coltrane Reference features a day by day chronology which extends from 1926-1967 detailing Coltrane's early years and every live performance given by Coltrane as either a sideman or leader and a discography offering full session information from the first year of recordings, 1946, to the last, 1967. The appendices list every film and television appearance as well as every recorded interview. Richly illustrated with over 250 album covers and photos from the collection of Yasuhiro Fujioka, The John Coltrane Reference will find a place in every major library supporting a jazz studies program as well as John Coltrane enthusiasts. *Brilliant Corners* Chris Sheridan, 2001-04-30 In this masterful compilation, world recognized discographer Chris Sheridan draws together the most comprehensive reconstruction of Thelonious Monk's performances and recordings. Woven through the chronological listing of Monk's work is the story of his rise to acceptance as one of the key pianists and composers of jazz and his decline in health and popularity to his death in 1982. Following a Prologue which attempts to summarize the career and man, the narrative discography covers Monk's entire performance career. This is followed by appendixes listing all microgroove and post microgroove issues of Monk's performances, all known commercially produced films and videos in which Monk took part, a listing of all of his engagements from 1944 until his career petered out in the mid 1970s and a bibliography. The work concludes with an index of the people, places, producers and radio and television programs referred to or quoted in the main
