Forum, 1924 **A Working Grammar of the English Language** James Champlin Fernald, 1910 **Evaluation of a Language Course in Malta** Marlene Weber, 2013-12-12 Pre University Paper from the year 2009 in the subject Didactics for the subject English Applied Geography grade 13 Punkte course Leistungskurs Englisch language English abstract In the past few years I recognized more and more students going on language courses abroad Not only course in the U S but also courses within Europe strongly increase in popularity There is a great variety of tender from language courses that take only a few weeks or months to so called High School Years professional business courses and even work and travel programs At a first glance it is very difficult to decide what to choose but I would like to concentrate on language courses for students that last only a few weeks I wanted to know why this is so fashionable nowadays and I began to think about this topic more intensively I asked myself if this would not be a great thing for me to do too In the following pages I am going to examine such language courses in detail I will present the different types of courses you can choose and the selection of accommodation available There will also be an evaluation I lead through a survey at Linguatime Language School in Sliema Malta to find out why so many students go on language holidays and if there is any progress possible at all It has two parts A and B I distributed one at the beginning and one at the end of my stay in Malta to see if the students expectations were fulfilled or not There can be seen positive and negative aspects that hopefully reveal the real image of such a trip After my evaluation I am going to compare two particular language schools in Malta the aspects will be the variety of courses the accommodation types the prices and the teachers As a last point in my conclusion I am going to sum up the evaluation so you

will be able to see for yourself if such language courses really keep their promises But at first I want to have a closer look on the history of the country I chose for my stay Malta has always been an interesting country for me because so many different cultures left their remains on its grounds And although it is close to the African coast it is still a part of Europe which makes the journey much easier Another advantage of Malta is the currency for they have obtained the Euro in 2004 The thing I liked best of this island is that they have English as an official language There are not so many countries so far in the south where you can speak English with native speakers and enjoy the warm climate as well especially not in Europe
