**Knowledge** Jacob Needleman, Dennis Lewis, 1976 Help I need somebody but is it a guru or a shrink In response to this dilemma the philosopher Jacob Needleman arranged a lecture series at the University of California Medical Center in San Francisco in the hope of clarifying both the distinctions and the interrelations between these two paths of self knowledge psychotherapy and the ancient spiritual disciplines This book is the enriching and often electrifying result The eight lecturers psychotherapists interested in the further reaches of self development and spiritual teachers concerned with helping people live dispatch the basic question with little ultimate disagreement The consensus most concisely expressed by British therapist A C Robin Skynner is that therapy and the sacred traditions lead in quite different one might say perpendicular directions therapy towards integration and functioning on the plane of normal daily life spiritual discipline towards the far more difficult and demanding ascent into transcendence and self evolution But while the confusion of the two can be dangerous properly understood they can assist and enhance each other Kirkus Reviews 10 15 76      **Self-Knowledge** The School of Life, 2017-09-21 In Ancient Greece when the philosopher Socrates was asked to sum up what all philosophical commandments could be reduced to he replied Know yourself Self knowledge matters so much because it is only on the basis of an accurate sense of who we are that we can make reliable decisions particularly around love and work This book takes us

on a journey into our deepest most elusive selves and arms us with a set of tools to understand our characters properly We come away equipped with a newly clarified sense of who we are what we need to watch out for when making decisions and what our priorities and potential might be **Make Self-Knowledge Great Again** Steven Franssen,2017-02-23 This book is not approved by any board of licensed professional counselors nor would it be in the interests of a board to do so This book is for those who would like to get to know themselves better but have not the time to manage a relationship with a therapist who is ignorant of philosophy and its importance in the modern world After reading this book you will have more empathy for yourself plenty of tools for self therapy and knowledge of the structure of your inner world You will also have gained more empathy for others a keener sense of interpersonal boundaries and why they matter and knowledge of how to build a strong adult life anchored in reality Additionally this book serves to combat the abuses of nihilism political correctness radical egalitarianism leftism and licensed counseling that so often harm well meaning people Lastly this book will help you to stir up the good kind of trouble In order to save civilization we must Make Self Knowledge Great Again **The Way to**

**Self-Knowledge and Self-Discipline (Classic Reprint)** B. W. Maturin, 2017-10-11 Excerpt from Self Knowledge and Self Discipline But the knowledge of self is as necessary for the Spiritual life as is the knowledge of God It is at once a condition and an effect of this knowledge The more we grow in the knowledge of God the deeper our knowledge of self and if we would attain to any knowledge of God there must be some knowledge of self When Isaias saw the Lord s Glory in the Temple there was at once a deepening sense of his own sinfulness Woe is me because I am a man of unclean lips and I have seen with my eyes the King the Lord of hosts For the soul is created in the Image of God and it cannot approach His Presence without perceiving how unlike it is to Him in whose Image it was made To know God is to know self To have no knowledge of God is to walk in darkness to have no absolute standard by which to gauge and measure oneself Those who shut God altogether out of their lives are able to live in stupid if not happy ignorance Of what a failure their lives are About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
