Pedagogical Opportunities of the Review Genre Maarit Jaakkola, 2024-06-28 Pedagogical Opportunities of the Review Genre unleashes the pedagogical potential of the review genre reframing the act of reviewing of cultural products as a communicative practice from a pedagogical perspective. Negotiating between traditions of journalism and media studies and pedagogy the author presents a novel approach that will increase the readers' understanding of an activity that is on the increase in an era where everyone can be a critic. She identifies, describes and develops genre-based pedagogies in formal, non-formal and informal contexts of learning and teaching in order to recontextualize the review as a form of learning and rethink of its potential as an inclusive, engaging and a transformative critical cultural practice. This innovative and truly interdisciplinary study will interest students and researchers in the areas of media literacy, digital media, media and communication studies, cultural studies, sociology of arts and pedagogical studies in particular cultural journalism and criticism, audience studies, cultural production and cultural mediation as well as critical media pedagogy and literacy studies.

As with literature, film can be used to inform, entertain, inspire, critical thinking, educate, and more. As such, it is a useful tool to implement in the classrooms of all levels and subjects. It is essential to explore the implementation of film in classrooms and the multiple teaching methodologies surrounding it. *Enhancing Education Through Multidisciplinary Film Teaching Methodologies* provides strategies that emphasize close reading, analysis, curricular connections, and composing through film. Covering topics such as critical cultural awareness, literacy education, and film pedagogies, this premier reference source is an essential resource for preservice teachers, teacher educators, faculty, and administrators of both K-12 and higher education, librarians, researchers, and academicians.

The teaching unit will present a possible lesson design for English classes developed with the core curriculum for the upper secondary school English lessons of the Hessian Ministry of Education in mind. Besides it improves resistance to disinformation making it a good introduction to the complex topic. The students' awareness for fake news and disinformation on the Internet can be raised with the help of interactive and narrative elements that occur in the game and encourage constructive discussion. The teaching unit which comprises a total of 1 double lesson serves to introduce the topic of fake news and disinformation and to get to know the prevailing problem as well as the linguistic characteristics.
