Need Two:

General Chemistry I as a Second Language David R. Klein, 2005-03-16 Many students and instructors are overwhelmed by the vast amount of content and concepts presented in General Chemistry. Students often emerge from the course with little understanding of chemical concepts and must be retaught in subsequent courses. This supplemental text can be paired with Olmsted Williams Brady Spencer or any other General Chemistry title. David Klein is a lecturer at Johns Hopkins University where he teaches Organic and General Chemistry. He is a dynamic and creative teacher and uses analogy to help students grasp difficult topics. Klein's unique informal voice and manner of presentation help students truly master key topics in this course. He is also the author of *Organic Chemistry as a Second Language*. Response to this book has been phenomenal.

Brazilian Sign Language Studies Ronice Müller de Quadros, 2020-08-10 This book brings together a collection of studies on Brazilian Sign Language Libras. Research on Libras began in earnest 20 years ago around the time that Libras was recognised as a national language of Brazil in 2002. Over the years more and more deaf researchers have become sign language linguists and the community of Libras scholars have documented this language and built robust resources for linguistic research. This book provides a selection of studies by these scholars representing work in a variety of areas from phonology to creative literature.
